- (6) A minimum of 10% of the original sale price to the County (same amount as the original bid bond) as an administrative fee for the costs of readvertising and reestablishing the sale or pay the difference between the new sale price and the original price, but not less than 10% if the new sale price is less than the original price.

The Purchaser's direction to or contracting with another to complete performance required under this contract does not relieve the Purchaser from the responsibility for performance required under this contract or for liability for breach. **(Purchaser shall not subcontract any portion of this contract without prior written approval from the County, said approval will not be unreasonably withheld.)**
14. **INSPECTION.** The County retains for itself the right of ingress and egress to and on the sale area and may inspect the sale area and trucks hauling forest products from or traveling on the sale area at any time. 8/7/23 Rev.

*To Liaisons, CF Administrators, Team Leaders, and County Forest Internal Audit Teams – Listed below are selected CARS and Opportunities for Improvement that have application to individual counties. **ALL** of the CARS listed pre-2023 below have been closed, but it is our (DNR) responsibility as the group manager to confirm follow through by the group members on corrective actions. This is based on **DRAFT** findings from the 2023 CFL SFI and FSC **Surveillance** audits, as well as previous audit findings. Both DNR and the Counties also have responsibilities to comply with ALL aspects of the standards and a checklist of the entire standard is now part of the internal audit reviews.

The partnership meetings and County Forest 5-year audits remain a very important part of the group monitoring effort.

Partnership meetings – It is very important to document a county’s conformance or progress towards conformance on each and every item identified as a **current (2023)** CAR, OBS, or OFI in the partnership meeting minutes. **Do NOT** simply put “discussed certification CARs”. The section of this document titled “CARs & OFI/Observations (both SFI & FSC) from prior audits that may require attention and other potential issues” should be discussed if the issues are still relevant in the particular county and please document if any additional actions have been taken for these items, if relevant.

DO NOT INCLUDE the italicized questions directly as a part of your audit report or partnership minutes. They are included as prompts for generating discussion.

****Findings are based on the preliminary (verbal at closing meeting) SFI and FSC draft audit reports (coming yet) – as of 8/5/23.**
