Additional information: the following is a summary of focus areas of public health departments:

Community Health Improvement Plan and the Community Health Assessment; communicable disease surveillance, investigation, and control; maternal child health, environmental health, chronic disease, and injuries; and birth to three.

Wis. Stat. § 251.02(1) indicates in counties with a population of less than 500,000, unless a county board establishes a city-county health department under sub. (1m) jointly with the governing body of a city or establishes a multiple county health department under sub. (3) in conjunction with another county, the county board shall establish a single county health department, which shall meet the requirements of this chapter. The county health department shall serve all areas of the county that are not served by a city health department that was established prior to January 1, 1994, by a town or village health department established under sub. (3m), or by a multiple municipal local health department established under sub. (3r) or by a city-city health department established under sub. (3t). No governing body of a city may establish a city health department after January 1, 1994.

Wis. Stat. § 250.03 (1) (L) provides that the department (the state) shall perform or facilitate the performance of all of the following services and functions:

1. Monitor the health status of populations to identify and solve community health problems.
2. Investigate and diagnose community health problems and health hazards.
3. Inform and educate individuals about health issues.
4. Mobilize public and private sector collaboration and action to identify and solve health problems.
5. Develop policies, plans, and programs that support individual and community health efforts.
6. Enforce statutes and rules that protect health and ensure safety.
7. Link individuals to needed personal health services.
8. Assure a competent public health workforce.
9. Evaluate effectiveness, accessibility, and quality of personal and population-based health services.
10. Provide research to develop insights into and innovative solutions for health problems.

State DHS facilitates the performance of these services through the delivery of services/programs by Marathon County Health Department. The state conducts periodic reviews to ensure compliance. The public health department also meets the requirements of Wisconsin State Statutes, chapter 250-255.

Required services of local health departments are further explained by Chapter DHS 140, which lists the requirements for the level of health department.

Level I health departments must provide the following:

- Surveillance and investigation of local health issues
- Communicable disease control including education, monitoring, and prevention
- Chronic disease prevention
- Human health hazard control
- Policy and planning support
- Leadership and organizational competency regarding health issues to local partners and stakeholders
- Public Health nursing services

Level II health departments must comply with the requirements for a level I while also providing:

- Support and leadership to address community needs
- Evaluating health services
- Annual performance evaluations
- Quality Improvement activities

Level III health departments must comply with the requirements for a level I, II and III, which also includes:

- Data collection
- Providing public health expertise to local government stakeholders
- Identify and address population health issues
- Establish and implement an environmental health program
- Quality Improvement activities on individual and department levels
- Evaluation of collaborative efforts to assess, develop services

For the full list, please see DHS Chapter 140.

Child Welfare Division

Summary of services provided in Children Services includes: child protection access, assessment and ongoing services; youth justice intake and ongoing services; emergency on-call services; Coordinated Family Services (CFS), Children's Long Term Support (CLTS) waivers, Family Centered Treatment (FCT), Comprehensive Community Services (CCS) and assessment/referral. As well as stepparent adoptions, day care certifications, foster parent licensing, independent living services and purchased services (foster care, short term shelter care, kinship care, group home, residential care, corrections, secure custody, etc..).

Wis. Stat. Ch. 48 is the Children's Code and Wis. Stat. Ch. 938 is the Juvenile Justice Code.

Wis. Stat. § 48.56 requires each county having a population of less than 500,000 shall provide child welfare services through its county department. Each county department shall employ personnel who devote all or part of their time to child welfare services. Whenever possible, these personnel shall be social workers certified under Ch. 457.

Wis. Stat. § 48.57 (1) indicates that each county department shall administer and expend such amounts as may be necessary out of any moneys which may be appropriated for child welfare purposes by the county board of supervisors or by the legislature, which may be donated by individuals or private organizations or which may be otherwise provided.

Wis. Stat. § 938.57(1) indicates that each county department shall administer and expend such amounts as may be necessary out of any moneys which may be appropriated for juvenile welfare purposes by the county board of supervisors or donated by individuals or private organizations.

Wis. Stat. § 51.437 indicates that the county board of supervisors has the primary governmental responsibility for the well-being of those developmentally disabled citizens residing within its county and the families of the developmentally disabled insofar as the usual resultant family stresses bear on the well-being of the developmentally disabled citizen. This primary governmental responsibility is limited to the programs, services and resources that the county board of supervisors is reasonably able to provide within the limits of available state and federal funds and of county funds required to be appropriated to match state funds.

Wis. Stat. § 46.272 governs the Children's Community Options Program. This statutory section requires the department to establish a children's community options program with the main purpose of providing a coordinated approach to supporting families who have a child with a disability. Individual counties must determine what shall be done to meet these responsibilities in a way that adequately complies with the law. The burden of demonstrating that those responsibilities have been met to an adequate degree falls upon the county. The services, therefore, are not identical in each county even though the same basic mandate exists.

Children's Long-Term Support (CLTS) waivers provide the county access to State and Federal funding to serve the health and safety needs of children in the County. In many instances, these health and safety needs would otherwise be funded solely through local tax levy funding.

#### Income Maintenance Division

Wis. Stat. § 16.27 (4) indicates that a household may apply after September 30 and before May 16 of any year for heating assistance from the county department under s. 46.215 (1) (n) or 46.22 (1) (b) 4m. a. to e. or from another local governmental agency or a private nonprofit organization. Funding received for this program is budgeted to cover direct operational costs.

Wis. Stat. § 49.155 (3) the county department or agency with which the department contracts under sub. (1m) to determine eligibility in a particular geographic region or for a particular Indian tribal unit shall administer child care assistance in that geographic region or for that tribal unit. Funding received for this program is budgeted to cover direct operational costs.

Wis. Stat. Ch. 49-Income Maintenance Administration. We are part of a 4 county consortium that administers medical assistance and FoodShare. The county opted to be part of this consortium, but could decide not to provide direct administration of these programs and services; however, the county would still be required to contribute local funding (tax levy) to the consortium for direct operational costs. Administration of child care assistance, as well as, program integrity, fraud and overpayment recovery efforts are also consolidated within the 10 county consortium to further increase accuracy, consistency and efficiency in the administration of these public benefits

Airport operations	No	Wis. Stat. § 66.0301

Additional Information: Counties are not mandated to provide regional airport services. Marathon County joined with Portage County to form Central Wisconsin Airport (CWA). However, once the determination is made to operate such a facility, the operator is subject to numerous federal and state regulations. Moreover, because the CWA has accepted federal funds (e.g., FAA funding) throughout its history, any determination relative to continued operations is subject to considerable regulation. CWA is overseen, pursuant to the intergovernmental agreement between Portage and Marathon counties by the Central Wisconsin Airport Board.

<b>LIBRARY SITES</b> – (Athens, Edgar, Hatley, Marathon City, Mosinee, Rothschild, Stratford, Spencer, Wausau)	No*	Wis. Stat. § 43.11, 12

Additional Information:

\*Counties are not mandated to directly operate library facilities. However, in the event that a county does not directly provide library facilities, the county is required by statute to provide funding for the operations of public libraries within the county, and public libraries in adjacent counties, that serve county residents. Specific information regarding these funding obligations are set forth in section 43.12 of the Wisconsin Statutes. Payments made pursuant to § 43.12 or funds necessary to directly provide county library services under Chapter 43 of the statutes are exempt from Wisconsin levy limits.

Services and materials offered by Marathon County Public Library include, but are not limited to, the following: Books and audiobooks, DVDs and video games, magazines and newspapers, eBook and eAudio collections available through digital access.

Programming including: educational classes and workshops, crafting events, music and theatre performances, movie screenings, story times, experts, authors and other speakers to lead lectures, presentations and workshops on a number of subjects; additional services at varying locations including study and meeting rooms, passport services, computers and internet access, copy/print/fax services, notary public, and material delivery for homebound patrons.

The department shall be the mechanism by which governmental and nongovernmental agencies may coordinate their policies, plans and activities with regard to the aging.

Wis. Stat. § 46.82 identifies that a county board of supervisors of a county, the county boards of supervisors of 2 or more contiguous counties or an elected tribal governing body of a federally recognized American Indian tribe or band in this state may choose to administer, at the county or tribal level, programs for older individuals. Chapter 46.80 indicates that the department shall divide the state into distinct planning and service areas and designate a public or private nonprofit agency or organization as the area agency on aging for each planning and service area and we are the designated public agency.

Wis. Stat. § 46.283 identifies that a county board of supervisors may decide to apply to the department for a contract to operate a resource center.

The intergovernmental agreement creating the ADRC-CW provides that the funding allocation from each of the counties cannot be modified without the agreement of each of the county members (Langlade, Lincoln, Marathon, and Wood).

**NCHC – Core Programs**

Crisis Stabilization Services	No	Wis. Stat. § 51.15; 51.42
Protective Services and Placement	Yes	Wis. Stat. § 55.02
Elder Adult at Risk Agency	Yes	Wis. Stat. § 46.90
Comprehensive Community Services	No	Wis. Stat. § 49.45(30e) (6) Wis. Stat. § 51.42 (7) (6)

Additional Information: On behalf of Marathon County, North Central Health Care delivers services including, but not limited to, alcohol and other drug abuse outpatient services, mental health outpatient services, emergency services, adult protection services, adult community support services, comprehensive community service, psychiatrist and psychologist services, crisis, residential, inpatient, and hospitalization services.

Wis. Stat. § 51.42 identifies that the county board of supervisors has the primary responsibility for the well-being, treatment and care of the mentally ill, developmentally disabled, alcoholic and other drug dependent citizens residing within its county and for ensuring that those individuals in need of such emergency services found within its county receive immediate emergency services. This primary responsibility is limited to the programs, services and resources that the county board of supervisors is reasonably able to provide within the limits of available state and federal funds and of county funds required to be appropriated to match state funds. While counties are not directly mandated to provide crisis stabilization facilities, counties are required to provide care in the least restrictive form necessary. Stabilization facilities serve as a less-restrictive, less costly form of care for individuals discharging from an inpatient setting or as an alternative to an inpatient setting.

Wis. Stat. § 51.42(3) permits a county to meet its obligation through the creation of a multi-county community services program.

Wis. Stat. § 51.421 indicates that if funds are provided, and within the limits of the availability of funds provided under s. 51.423 (2), each county department under s. 51.42 shall establish a community support program. Each community support program shall use a coordinated case management system and shall provide or assure access to services for persons with serious

and persistent mental illness who reside within the community. Services provided or coordinated through a community support program shall include assessment, diagnosis, identification of persons in need of services, case management, crisis intervention, psychiatric treatment including medication supervision, counseling and psychotherapy, activities of daily living, psychosocial rehabilitation which may include services provided by day treatment programs, client advocacy including assistance in applying for any financial support for which the client may be eligible, residential services and recreational activities. Services shall be provided to an individual based upon his or her treatment and psychosocial rehabilitation needs.

Wis. Stat. § 51.22 indicates that except as provided in s. 51.20 (13) (a) 4. or 5., any person committed under this chapter shall be committed to the county department under s. 51.42 or 51.437 serving the person's county of residence, and such county department shall authorize placement of the person in an appropriate facility for care, custody and treatment. The county will incur the cost of these placements if it is not billable to insurance or the consumer.

Individual counties must determine what shall be done to meet these responsibilities in a way that adequately complies with the law. The burden of demonstrating that those responsibilities have been met to an adequate degree falls upon the county. The services, therefore, are not identical in each county even though the same basic mandate exists.

Comprehensive Community Services (CCS) is intended to assist individuals of all ages who are in need of ongoing services for mental illness, substance abuse disorder, or dual diagnosis beyond occasional outpatient care, but less than the intensive care provided in an inpatient setting. While CCS is not a mandated program, county-based governmental entities are the only entity in the state that can be certified.

Wis. Stat. § 55.02 identifies that the chairperson of each county board of supervisors shall designate a county department under s. 46.215, 46.22, 46.23, 51.42, or 51.437 that is providing services in the county on its own or through a joint mechanism with another county department or county to have the responsibility for planning for the provision of protective services and protective placement and for directly providing protective services.

Wis. Stat. § 46.90 requires that each county board shall designate an agency in the county as the elder-adult-at-risk agency. "Elder-adult-at-risk agency" means the agency designated by the county board of supervisors under sub. (2) to receive, respond to, and investigate reports of abuse, neglect, self-neglect, and financial exploitation under sub. (4).

**NCHC – OTHER PROGRAMS**

<b>Service</b>	<b>Mandated (Yes/No)</b>	<b>Statutory Authority</b>
Mount View Care Nursing Home* (Skilled Nursing, Rehabilitation, Dementia Care, Ventilator care)	No	
Adult Day Services	No	
Housing Programs (Group Homes, CBRFs, Riverview Terrace support)	No	
Hope House (Sober Living)	No	
Aquatic Therapy Pool	No	
Demand Transportation – 85.21	No	Wis. Stat. § 85.21
Early Intervention Services (Birth to Three)^	Yes	Wis. Stat. § 51.44

**Additional information:**

\*There is no state statute that mandates a county must own or operate a nursing home, adult day services, housing programs, sober living, or aquatic therapy pool. However, should the county undertake these activities, each program area is subject to significant regulation, including through the acceptance of various funding streams (e.g., medicare/Medicaid).

Wis. Stat. § 85.21 The purpose of this section is to promote the general public health and welfare by providing financial assistance to counties providing transportation services for elderly and disabled persons, and to thereby improve and promote the maintenance of human dignity and self-sufficiency by affording the benefits of transportation services to those people who would not otherwise have an available or accessible method of transportation. The County Board of Supervisors annually authorizes this program to be delivered through a grant application. The service is delivered through both NCHC and City of Wausau Transit. The Wisconsin Department of Transportation provides for financial assistance to deliver the program.

^Wis. Stat. § 51.44 indicates that each county board of supervisors shall designate the appropriate county department under s. 46.21, 46.23 or 51.437, the local health department of the county or another entity as the local lead agency to provide early intervention services. This chapter goes on to read that the department (the state) shall promulgate rules for the statewide implementation of the program. North Central Health Care currently delivers this program through a contract with Marathon County Special Education, which is located on the Lake View Drive Campus.

**SOLID WASTE DEPARTMENT**

<b>Service</b>	<b>Mandated (Yes/No)</b>	<b>Statutory Authority</b>
Solid Waste Management Operations	No	Wis. Stat. § 59.70(2)(a) and Chs. 144 & 159

Additional Information:

Counties are not mandated to directly provide Solid Waste management and recycling services; however, counties are permitted to engage in these activities, which can provide substantial benefits to local municipalities and residents. Should a county elect to provide said services it becomes subject to a wide variety of state and federal regulations (e.g., air permit, wetland management, engineering, gas management, and groundwater testing).

In addition to solid waste management and site operational programs, Marathon County Solid Waste Department provides a number of related services, including but not limited to Household Hazardous Waste Collection and Management; Agricultural Plastics Recycling, Home Composting, Street Sweeping exemption, Medication Drop Box and Sharps Management, and Municipal Recycling education).

Marathon County has a contractual obligation to provide landfill capacity and disposal to Shawano and Portage Counties through 2032. Marathon County also recently entered into a Gas Purchase Agreement and corresponding site lease with a third party relating to the processing and conversion of landfill gas into energy.

## Monthly Summary of the Marathon County Public Library for the Marathon County Extension, Education, and Economic Development Committee

For May 4, 2023 EEEDC Meeting

### New Initiative with State Parks

We are thrilled to share that MCPL has been selected to participate in the **Check Out Wisconsin's State Parks at Your Library** program. This innovative new partnership is designed to introduce patrons to libraries and to Wisconsin State Parks. MCPL will be provided with 20-40 daily park admission passes and park education kits to distribute to library card holders throughout the program. This partnership project is provided at no cost and is made possible by the Wisconsin Association of Public Libraries/Wisconsin Library Association, the Wisconsin State Park System at the Wisconsin Department of Natural Resources, Friends of Wisconsin State Parks, the C.D. Besadny Conservation Fund grant from the Natural Resources Foundation of Wisconsin, and the Wisconsin Department of Public Instruction. We are excited to be selected for the program, which will run May 1 through December 31 of this year.

### Sorter Update

Our new sorter will arrive sooner than expected, so preparations are underway to make the transition as smooth and successful as possible. Cables have been run, configuration details have been discussed, and we've determined how to make best use of the new device's additional sorting capacity.

By the time of the Library Board meeting, the Facilities department will have completed wall modifications, removal of the old sorter, and replacement of the carpet where the sorter had been. The new sorter is scheduled to arrive on April 25, with installation and testing on the following few days. We expect to be fully operational by the end of the day on April 28th. The dates may shift slightly, but time is built in to account for issues that arise.

We have worked out a plan for handling the additional manual sorting work during the downtime (a big thank you to the page team and the circulation desk team for helping out there). We will also have a "pardon our dust"-style sign ready to put in the area to let patrons know about this exciting project as it gets underway!

The new sorter offers a number of improvements over the old device: it is quieter, more energy efficient, simpler to repair, gentler on books, and best of all - it can do a finer-grained sort! Staff are looking forward to this long-anticipated upgrade.

## Library Services

March was a busy month for Library Services. The team worked diligently on refining several library services, including our monthly newsletter, programming, and various behind-the-scenes procedures that support us in providing excellent service to our patrons. We were pleased to have Dr. Ozalle Toms in the library to speak about her book *Letting Perseverance Finish*, and we tried out something new with our "Let's Talk! Social Hour" programs meant to help Marathon County residents find community with each other. Our notary, proctoring, and one-on-one Tech Time appointments continued to be very popular with our patrons this month. Additionally, we did outreach to patrons in our Homebound program and sent make-your-own bookmark kits to 14 local care facilities.

Youth Services was particularly bustling with activity this month. LENA Start Marathon County began the first week of March with a total of six sites, two of which are held at MCPL. Youth Services staff organized supplies and helped facilitators get prepared for the 10-week parenting course. Classes run through the first week of May and meet once a week, and there are about 40 families participating in LENA this spring. Special spring break programming also kept Youth Services busy in March. This year we offered a LEGO Club, movie matinee, game day, and a very popular Mario Party. Kids came dressed as their favorite Super Mario characters, enjoyed crafts, and had fun completing a Super Mario Scavenger Hunt through the Children's department. Another popular event was an afternoon with local dinosaur enthusiast, Dino Chris. Chris brought his collection of fossils and replicas to show families and answered their questions. Over 100 people came to the library for this event and we look forward to partnering with Chris again this summer for more fossil fun. An introduction to Manga Drawing program was offered for the first time and brought a lot of teens into the library. Story times were well attended, especially the Play and Learn Story Time that is offered in partnership with Children's Wisconsin. In April, they will start offering two story times instead of the one to accommodate the large group that has developed.

## Branches

Story time is increasing in popularity at many of our branches; for example, Marathon was visited by 60 children and Stratford welcomed over 120 during March. We hope to see even more story time friends in all locations as the year continues. Creative book displays were featured at all locations including ones like "Survival Stories," "I'm Ready for a Beach Read," "Irish I had More Time to Read," (books with green covers), and "Rock Your Paper with Scissors" (craft books).

Our Hatley branch held an escape room program over spring break that was extremely popular. Between Tuesday March 18th and Saturday March 22nd they had a total of 37 groups come through, ranging from 2 in a group up to 9 in a group and spanning all ages. A couple of groups came back more than once during the week. They ended up with a grand total of 147 participants!! We hope to continue offering this during winter and spring breaks to give families something different to do.

Spencer held their 6th Honor Flight Mail Call on March 29th. Adults and children came to the library to make cards for the Honor Flight, which will be leaving CWA in May. The library provided all necessary material including stamps, stickers, papers, markers, scrapbooking paper, etc. This year, the president of the Zoological Society of Marshfield took 50 amazing photos of animals at the Marshfield Zoo to use on cards. People came from not only Spencer, but Marshfield and Clark County as well. 363 cards were made for our veterans!

In Rothschild, 13 patrons attended our Make a PAWsome Friend event. The Paper Cities Kennel Club was on hand to share tips and techniques for safely interacting with dogs - both pups you know and don't know. Everyone had a great time and learned something new!

Branch coordinators attended the branch coordinator meeting on 3/17, and Nikki and Laura attended the programming committee meeting on 3/27.

## 4-H – Positive Youth Development

Holly Luerssen, 4-H Program Educator

Jasmine Carbajal, 4-H Associate Educator

- A fun and interactive event for Marathon County youth and their families at a local indoor county pool where the goal was to increase knowledge about 4-H and create an inclusive, safe, and welcoming environment for youth and families to interact.
- A hands-on educational session where Marathon County youth in 3rd grade and older learned how to make flour and corn tortillas using a rolling pin and a tortillera. The goal of the program was to expose youth to a new cuisine, teach them kitchen skills they can use in their lifetime, and help them gain confidence in the kitchen in a safe and welcoming environment.
- Family Game Night was a family engagement event for 4-H families. The goal of this event was to provide an opportunity for families to make connects while having fun. Family Game night was attending by 95 youth and adults who laughed while engaging with others and learned about upcoming summer programs.
- Camp Staff Trainings were held both in-person and virtually in March. We are preparing a team of 25 youth counselors and 7 adults to be purposeful leaders at the June 12-14, 2023, summer camp. Camp staff training to date has included making connections, building the team, understanding roles, how to navigate camper behaviors, and begin to understand positive program quality. Camp staff will continue with 3 more trainings before camp.

## Agriculture

Heather Schlessner, Dairy Agent

- This past month Heather has received a grant to investigate the prevalence of *Prototheca bovis* mastitis. *Prototheca* is an algae that has recently been found to cause mastitis. There currently is not a cure for this kind of mastitis and early detection is necessary for control. Heather is currently in the process of cleaning lab space and ordering supplies for this project.
- Heather is continuing to prepare for the colostrum management research project. In the past month Heather has completed the paperwork for hiring a person to help with this project. All animal handling protocols have been submitted and approved for this project.
- Planning for a regional Farm Stress Summit at the Marshfield Clinic is underway. The planning committee is looking at an October/ November time frame. We are currently trying to determine when we can get room space.
- Heather and Jasmine are currently working on putting together a program for youth for May Beef Month.

## FoodWise

Mallory McGivern, FoodWise Administrator

- FoodWise is hiring a full-time Marathon County Nutrition Educator: <https://go.wisc.edu/00olu3>
- A monthly nutrition education Healthy Eating Series was offered to SNAP-eligible residents, where participants learn healthy lifestyle choices, food preparation, food safety, food resource management and physical activity. The goal of the series is to improve healthy eating and physical activity habits for Marathon County residents. Nutrition Educator, Penny Schmitt, taught participants about reading labels and whole grains.
- An 8-week session of Strongbodies was concluded and 100% of respondents reported that their physical health was better as a result of the twice per week strength training classes. Virtual statewide Strongbodies continues through the spring: <https://go.wisc.edu/71ptii>

## Horticulture

Janell Wehr, Horticulture Educator

Lifelong learning is beneficial for Marathon County's aging population because it supports overall cognitive function, sense of accomplishment and personal growth, positive social engagement that combats social isolation (common in older adults) and develops technology skills.

In "Starting Seeds Indoors", 22 participants from The Landing, a community for adults over 55, learned how to choose an appropriate seed starting medium, the requirements for seed germination, and how to provide conditions for seedlings to thrive.

As a result of the program,

-100% of participants stated that they understood how to choose the appropriate growing media for starting seeds.

-100% of participants stated that they understood the requirements needed for seed germination..

-100% of participants stated they understood how to provide the conditions for seedlings to thrive.

One pleased participant shared, "I have never done this but (I) can't wait to get started."

- A therapeutic horticulture program for lifelong learners through UWSP LIFE, where participants learned best practices in creating container gardens. This effort is designed to support lifelong learning, healthy wellbeing, and positive socialization.
- A presentation for the general public (Clark County Master Gardener Annual Spring Garden Conference), where participants learned about basic landscape design. This effort is designed to increase awareness and knowledge of resources to increase addressing environmental contamination and pollution (due to overuse of horticulture chemicals).
- A presentation for the general public hosted by the Marathon County Public Library-Wausau Branch, where participants learned about growing media, the requirements for seed germination and conditions needed for seedlings to thrive. This effort is designed to increase knowledge of resources to encourage home gardeners' success.
- A presentation hosted by the Waushara County Association for Home and Community Education for the general public, where participants learned how to install pollinator habitats in their landscapes. This effort is designed to increase awareness and knowledge of resources to increase pollinator habitat.
- A therapeutic horticulture class (Starting Seeds Indoors) for community members aged 55+, where participants learned about growing media, the requirements for seed germination and conditions needed for seedlings to thrive. The goal is to support lifelong learning, healthy wellbeing, and positive socialization.
- An orientation for Marathon County Master Gardener Volunteers who answer diagnostic questions on behalf of the Extension office, where volunteers learned how to process and document horticultural inquiries for Marathon County. This effort was designed to address environmental contamination and pollution due to overuse of horticulture chemicals in urban and suburban environments.

## Natural Resources

Kris Tiles, NRI Program Manager

Anna James, Regional Natural Resources Educator

This spring Wood County Land and Water Conservation hosted the Central Wisconsin Farm Profitability Expo, in partnership with UW-Madison Extension, Wisconsin Potato and Vegetable Growers Association, and Mid-State Technical College. The event was held at Mid-State Technical College in Wisconsin Rapids, Wisconsin on March 22nd, 2023, from 10 a.m. to 3 p.m.

The Central Wisconsin Farm Profitability Expo is a revitalization of Healthy Soil, Healthy Water events that first took place in 2016 as a part of the Wisconsin River Total Maximum Daily Load (TMDL) project. The event has since blossomed into a diverse gathering of stakeholders coming together to encourage profitable farming by building resiliency, diversifying farming operations, reducing inputs, and increasing farmer return on investments. Attendees can often find themselves in the company of producers, shoreline property owners, and staff from multiple agencies and organizations.

This year's event covered an abundance of topics relevant to Central Wisconsin. Attendees learned about conservation practices farmers use to increase profitability and self-sufficiency while being stewards of the land, and challenges and opportunities for nitrate reduction in the Central Sands. Central Wisconsin farmers also discussed the specific barriers they are experiencing when adopting best management practices, and conservation professionals covered funding programs available to help with adoption of best management practices.

This year's event saw close to 50 participants that joined in person and virtually. Registration and lunch were free thanks to Petenwell and Castle Rock Stewards and Wood County Land and Water Conservation. To learn more about the event, please visit <https://www.mstc.edu/farm-expo>.

- A facilitated discussion with members of the Eau Pleine Partnership for Integrated Conservation, a producer-led watershed protection group, where participants discussed the group's strategic plan and reviewed the efforts made to meet outlined goals and objectives within the plan. Through this activity, the group was able to identify areas where they could be focusing next steps to meet their current strategic plan, and/or parts of the strategic plan that need to be updated to meet the group's future goals and objectives.
- An educational display for landowners within the Fenwood Creek Watershed where event attendees learned about the watershed approach and water resources by engaging in hands-on activities. Attendees also learned about the effects of non-point source pollution to groundwater and surface water resources. The goal of this display was to help landowners take an active role in a watershed restoration project by learning ways that they can reduce their impact to water resources while being good stewards of the land.

- A facilitated discussion for lead producers and collaborators from producer-led watershed groups in the North Central Region where attendees discussed future events, such as field days, and explored opportunities for future collaboration of events. Attendees also discussed their needs within the producer-led watershed group and planned for a future meeting to review plans of work and grant proposals as a team. Through this activity, producer-led watershed groups within the North Central Region had the opportunity to share their planned activities and group ideas while asking for feedback from other groups.
- A series of webinars for new Wisconsin landowners, where participants networked with conservation professionals from extension, local, state, and federal governments, and non-profit organizations to improve private land stewardship in Wisconsin.
