### Worksheet 1 – Animal Units

**Instructions:** Use this worksheet to determine the number of animal units for which you request approval. You may request approval for a number that is large enough to accommodate current and potential future expansions. If the local government approves the requested number of animal units, that is the maximum number that you may keep for 90 days or more in any 12-month period. You may not exceed that number without additional approval.

To complete this worksheet:

1. Identify each type of livestock that you might keep at the proposed facility. Enter the maximum number of animals of each type that you might keep for at least 90 days in any 12-month period.
2. Multiply the number of animals of each type by the relevant Animal Unit Factor to obtain animal units of each type.
3. Sum the animal units for all livestock types to obtain the Total Animal Units for which you request approval.

	Livestock Type	Animal Unit Factor	Animal Units For Proposed Facility
