#### RESOLUTION #R-78-21

#### Resolution Approving Adjustment to State Property Tax Levy Limit for 2022 Budget.

WHEREAS, it is in the best interest of the Marathon County to maximize flexibility in managing current and future year budgets while complying with property tax levy limits imposed by the State of Wisconsin; and

WHEREAS, Marathon County did not levy the maximum property taxes permitted under state levy limits for the 2021 budget, resulting in a carryforward of property tax levy capacity of \$716,160 as per the calculations by the Wisconsin Department of Revenue; and

WHEREAS, under Wisconsin statutes sec. 66.0602(3)(f) the County is allowed to adjust its levy limit for the 2022 budget by the amount of the above noted carryforward by a three quarters majority vote of the County Board; and

WHEREAS, the Human Resources, Finance and Property Committee has affirmed that adjusting the 2022 levy limit for the 2021 carryforward is a prudent action for the County to take to provide flexibility for future year County budgets; and

NOW, THEREFORE BE IT RESOLVED, by the Marathon County Board of Supervisors that the levy limit for the 2022 budget be adjusted for the unused levy carryforward from 2021 as allowed by Wisconsin statutes sec. 66.0602(3)(f); and

BE IT FURTHER RESOLVED, that the proper County official(s) are hereby authorized and directed to complete the state required levy limit worksheet accordingly.

#### **Appendix 2: Evidenced-Based Intervention Additional Information**

#### What is evidence-based?

For the purposes of the SLFRF, evidence-based refers to interventions with strong or moderate evidence as defined below:

Strong evidence means the evidence base that can support causal conclusions for the specific program proposed by the applicant with the highest level of confidence. This consists of one or more well-designed and well-implemented experimental studies conducted on the proposed program with positive findings on one or more intended outcomes.

Moderate evidence means that there is a reasonably developed evidence base that can support causal conclusions. The evidence base consists of one or more quasi-experimental studies with positive findings on one or more intended outcomes OR two or more non-experimental studies with positive findings on one or more intended outcomes. Examples of research that meet the standards include: well-designed and well-implemented quasi-experimental studies that compare outcomes between the group receiving the intervention and a matched comparison group (i.e., a similar population that does not receive the intervention).

Preliminary evidence means that the evidence base can support conclusions about the program's contribution to observed outcomes. The evidence base consists of at least one non-experimental study. A study that demonstrates improvement in program beneficiaries over time on one or more intended outcomes OR an implementation (process evaluation) study used to learn and improve program operations would constitute preliminary evidence. Examples of research that meet the standards include: (1) outcome studies that track program beneficiaries through a service pipeline and measure beneficiaries' responses at the end of the program; and (2) pre- and post-test research that determines whether beneficiaries have improved on an intended outcome.

4. Policy Issues for Discussion and Possible Action

**A.** Consideration of whether to direct the Administrator to provide for continued recording and broadcast of Standing Committee meetings through the proposed 2022 budget (called for in the April 15, 2021 meeting)

#### Discussion:

Administrator Leonhard provided background and reminded the committee of the County Board's directive to provide information at this meeting relative to utilization and costs for recordings of all standing committee meetings contracted with Wausau Access Area Media. A document provided in the <u>packet here</u> showed monthly costs and actual views for all standing committee meetings from May-September, 2021. The estimated cost for 2022 to record and view in real time on YouTube and available on the county's website is an estimated \$6534.

#### Action:

ROBINSON MADE A MOTION; SECOND BY BUTTKE TO CONTINUE RECORDING AND BROADCASTING STANDING COMMITTEE MEETINGS IN 2022. MOTION CARRIED.

B. County Board Salaries

#### Discussion:

Administrator Leonhard explained the current rule below and the process the county board has historically used relative to salaries:

Annual salary for the positions of supervisor and board chair shall be set by the County Board, at its annual meeting by a two-thirds vote of the members entitled to a seat, fix the compensation of the supervisors to be next elected at an annual salary for all services to the county including all committee services. The board may, allow additional salary for the chairperson of the board. A vote will be taken in November of odd-numbered years for the next succeeding two-year term. By rule, the board will provide for a three-percent annual increase in salary to County Board members and the chair to be effective the first pay period in April following the Spring Election of supervisors in even-numbered years, and January 1 of odd-numbered years. Any recommended modifications to the initial resolution will be developed and proposed to the County Board by the Human Resources, Finance and Property Committee.

The committee discussed the zero percent increase that was implemented for 2020 and 2021 and whether or not to continue with a zero percent increase for 2022 and 2023 or follow Board Rule 19 above for a three-percent annual increase in salary.

#### Action:

BOOTZ MADE A MOTION; SECOND BY LEAHY TO MOVE A 0% INCREASE FOR 2022 AND 2023 BOARD SALARIES.

A roll call vote was performed: Chair Kurt Gibbs no; Vice-Chair Craig McEwen no; Matt Bootz yes; Tim Buttke no; Alyson Leahy no; Jean Maszk no; John Robinson no; Sara Guild no. MOTION FAILED.

#### Follow up:

No follow up needed.

C. Legal Review of the Marathon County Code of Ordinances by Outside Entity

#### Discussion:

Chair Gibbs requested input from the committee to discuss making a recommendation whether or not the county board should hire an outside entity to review all of Marathon County's Code of Ordinances to ensure compliance with Wis. Stat. §§, or should it be done internally, or both.

Administrator Leonhard indicated there would be a significant value in seeking outside assistance to do an overhaul comprehensive review of code provisions. There would be a need for staff resources to support their efforts and for routine maintenance. For example, committees referenced no longer exist and procedures or processes are potentially inconsistent with the intent of the board. Leonhard also suggested the board identify individual board members to play an active role in this review to reflect the will of the board.

Clerk Kim Trueblood explained she was approached by Municode earlier this summer with a proposal to review our code due to it not being overhauled since 1993. The proposal includes a two-stage process over a two-year period with different options such as identifying items that we want Municode attorneys to do and/or what we can do inhouse. The proposal is valid for 90 days, however, Trueblood indicated there would be some flexibility if we pushed it out a little further, but if it is delayed a significant amount of time, the price could potentially increase. The proposal can be viewed in the packet here.

#### **Supervisor Comments:**

- Concerned the demand for additional staff time will take away from other priorities
- Need more time to develop and implement a comprehensive approach to what the timeline would be and the expectation of the county board, departments, corporation council, and the clerk.
- Potentially create a board task force

#### Follow up:

Chair Gibbs will work with Administrator Leonhard to address the concerns above.

D. Resolution in Opposition to Proposed Legislation on use of ARPA for Housing

#### Discussion:

Chair Gibbs reported WI Assembly passed Bill 605 that directs Marathon County to utilize \$1 million dollars of ARPA funds for workforce housing infrastructure and/or workforce housing.

The proposed resolution opposes the bill and indicates Marathon County is in a better position to establish spending priorities to address local needs and where it should spend ARPA funds.

#### Action:

E. MOTION BY ROBINSON; SECOND BY BUTTKE TO MOVE A RESOLUTION IN OPPOSITION TO PROPOSED LEGISLATION ON USE OF ARPA FOR HOUSING TO THE FULL BOARD FOR ITS CONSIDERATION. MOTION CARRIED

#### Follow up:

Forward to county board.

- 5. Operational Functions Required by Statute, Ordinance, or Resolution None
- 6. Educational Presentations and Committee Discussion None
- 7. Next Meeting Date & Time, Location, Announcements and Future Agenda Items:
  - **A.** Committee members are asked to bring ideas for future discussion.
  - B. Next Meeting: TBD, potentially November 4th
- 8. Adjournment
