

PRIVATE ON-SITE WASTEWATER TREATMENT SYSTEMS (POWTS) FEE SCHEDULE (CHAPTER 15)

	<u>Description</u>	<u>Fee</u>
Sanitary Permit Fees	Conventional.....	\$500
	In-ground Pressure.....	\$650
	Mound/At Grade.....	\$650
	Holding Tank	\$650
	Replace septic or pump tanks.....	\$250
	Modification to system	\$250
	Commercial and Public Buildings exceeding 750 gallons/day.....	\$750
	Non-plumbing sanitary (ie. Privy or composting toilet).....	\$50
	Reconnection	\$150
	Minor Modification or repair	\$50
Related Fees	Plumber transfer	\$50
	Renewal of Sanitary Permit	\$50
	Re-inspection Fee.....	\$50
	Soil and onsite Evaluation review	\$100
	Major Plan Revision	\$85
	Holding Tank Agreement (Recording fee).....	\$30
	Holding Tank Affidavit (Recording fee)	\$30
Holding Tank Waiver.....	\$50	

More than two structures are the same fee as one and two family residences except an \$100.00 fee will be assessed for each structure served in the design.

***After the fact permit application fees are double, with a minimum of \$200.00**

** This is an abbreviated list of the POWTS fees and description of the service. For a detail list, please contact the Conservation, Planning and Zoning Department.

Marathon County is authorized to review plans for the following POWTS:

<i>POWTS Type</i> ¹	<i>Use</i>	<i>Design flow</i>	<i>Plan review fee</i>
Holding Tanks	One & two family dwellings, Public or Commercial ^{2, 3}	<4,500 gpd (<3,000 gpd estimated flow)	no
Conventional Systems (Non-pressurized In-ground)	One & two family dwellings	n/a	no
Conventional Systems (Non-pressurized In-ground)	Public or Commercial ^{2, 4}	<3,000 gpd	Yes ⁵
Pressurized In-Ground	One & two family dwellings	n/a	Yes ⁵
At-Grades	One & two family dwellings	n/a	Yes ⁵
Mound Systems	One & two family dwellings	n/a	Yes ⁵

Notes:

¹ Plans which do not completely use approved component manuals or approved products must be submitted to DSPS for review [no Individual Site Designs]

² POWTS receiving domestic wastewater only. Plans for systems receiving domestic wastewater combined with industrial wastes must be submitted to DSPS for review [and may also require DNR approval].

³ Plans for holding tank/grease interceptor combinations must be submitted to DSPS for review.

⁴ Plans for systems receiving high strength wastes must be submitted to DSPS for review.

⁵ Marathon County's plan review fees are the same as those charged by DSPS [see excerpts from Table SPS 302.65 below]. Plan review fee is not included in the sanitary permit fee.

Table 302.65	
Plan Review	
Private Onsite Wastewater Treatment Systems	
Type of Project	Fee
1. All treatment components are approved under s. SPS 384.10 (2) or (3):	
a. Design wastewater flow of the proposed system:	
b. 1,000 gpd or less	\$250.00
c. 1,001–2,000 gpd	\$325.00
d. 2,001–5,000 gpd	\$400.00
