

## MARATHON COUNTY PARK COMMISSION AGENDA

# Date and Time of Meeting: Tuesday, May 30, 2023 at 10:30am Meeting Location: 212 River Dr. Wausau WI 54403, Room 5

The meeting site identified above will be open to the public. Persons wishing to attend the meeting by phone may call into the telephone conference beginning ten minutes prior to the start time indicated above using the following number: 1-408-418-9388 Access code: 2493 478 0657. When you enter the telephone conference, PLEASE PUT YOUR PHONE ON MUTE!

## Park Commission Members -

Commissioners: Dawn Herbst, Jean Maszk, Allen Opall, Rick Seefeldt, Kelly Zagrzebski, Lou Larsen, Vacant

**Marathon County Mission Statement:** Marathon County Government serves people by leading, coordinating, and providing county, regional, and statewide initiatives. It directly or in cooperation with other public and private partners provides services and creates opportunities that make Marathon County and the surrounding area a preferred place to live, work, visit, and do business. (Last updated: 12-20-05)

**Parks, Recreation and Forestry Department Mission Statement:** Adaptively manage our park and forest lands for natural resource sustainability while providing healthy recreational opportunities and unique experiences making Marathon County the preferred place to live, work, and play.

## Marathon County Park Commission

## AGENDA SUMMARY

6A. <u>Discussion and Possible Action Regarding 2024 Annual Budget and Policy Recommendations</u> As part of the budget process, the Board adopted a process that envisions the Standing Committees reviewing each of the services delivered by the departments/organizations under their oversight, or with which they have a reporting relationship. The documents to assist in the discussions of each standing committee is attached.

The first document is the mandated/discretionary program document. The second document is the rates & fees document. The 5 year departmental budget document was created by Finance. It is a document that is in the budget each year; however, there were two important additions (i.e., the levy as a percentage of budget column and the department as percentage of total column). The idea with those two columns is to help the board understand that not every dollar in the budget is the same. That is, if you cut a dollar in one department that is 50% levy funded it doesn't have the same impact on the tax levy (necessarily) as if you cut a dollar from a department that is 90% levy funded. The final document illustrates the departments that relate to each committee.

Staff will discuss the work the department has done do date to evaluate ways to reduce tax levy dependency and increase efficiency within the department. Staff will discuss the department fee philosophy, cost recovery goals for various programs, plans to conduct a comprehensive review of the current fee schedules and other potential opportunities to reduce the department's 31% dependency on tax levy.

The Commission is asked to provide feedback regarding fees and programs that staff will relay to the Environmental Resources Committee at their meeting later in the day.

## 7A. Wausau/Marathon County Parks & Recreation Foundation Update

The Wausau/Marathon County Parks & Recreation Foundation has been working on completing the Great Pinery Heritage Water Trail. The foundation has also been reviewing their bylaws to be consistent with how they feel the foundation should function. They have also developed a grant application process and usually see one to two grant requests per quarter. They have also updated their agreement with Ironbull. Staff will provide the Commission with more detail on these items and answer any questions the Commission might have.

## 7B. 2024 Capital Projects Submitted

The capital projects that were submitted for review for 2024 include:

- Nine Mile Septic System Replacement
- Dells of Eau Claire Restroom/Shower Facility, Dump Station Installation and Camper Cabins
- Arena Architectural Study
- Eastgate Hall Improvements
- Big Eau Pleine Restroom/Shower Facility
- Cherokee Restroom Replacement
- Site Planning and Architectural Study for Marathon Park Junction and Family Area

## 7C. Project Update

Sports Complex:

- 4 field markers received new bases and were straightened after extensive settling. This work was completed prior to the MC United Spring Cup Tournament.
- The Spring Cup tournament was a very successful tournament for the soccer organization as well as the community. Thousands of people enjoyed the complex either as a player, spectator, volunteer or referee.

Shooting Range:

- Emergency culvert repair was needed after the culvert was washed out. This work closed the range for one day.
- Staff is completing the upgrades to the Archery Range to close out the grant that enabled the improvements including the elevated shooting platform.

Playgrounds :

- Bluegill Bay- Playground installation complete, waiting for border to be poured and engineered wood fibers (EWF)
- Cherokee Playground installation scheduled for week of 5/29
- Mission Lake Playground installed, waiting on border and EWF Sunnyvale Softball:
  - Batting cage installed

## 7D. Marathon Park Water Project

The watermain has been replaced and is now looped through the park from Garfield Ave to Stewart Ave. The contractor is now conducting pressure tests and taking water samples. Once the pressure tests pass and the water samples are approved the contractor can install the laterals off of the watermain. The section on the west end of the park has passed the pressure test and water sample and the contractor has installed or is installing laterals to the Exhibition Building, Marathon Junction, Eastgate Hall, Multipurpose Buildings, cattle barns and judging pavilion. The contractor is on schedule to complete their part of the work the first week of June. Once the contractor is complete Parks staff will complete the site restoration.

## DRAFT MARATHON COUNTY PARK COMMISSION

Date and Time of Meeting: May 2, 2023 at 10:30am Location: Room 5 at 212 River Dr., Wausau WI 54403

Park Commissioners present: Dawn Herbst, Lou Larson, Jean Maszk-(via webex), Rick Seefeldt, Kelly Zagrzebski Park Commissioners excused: Allen Opall

Staff present: Jamie Polley-Parks, Recreation and Forestry Director, Mark Dorow - Recreation Superintendent

**1.** Call to Order – Vice-President Herbst called the Park Commission meeting to order at 10:30am. Official notice and the agenda for the meeting was posted publicly in accordance with the State statutes.

2. Public Comment – none brought forward

**3.** Approval of the Minutes of the April **4**, 2023 Park Commission Meeting – Motion by Larson, second by Zagrzebski to approve the April **4**, 2023 meeting minutes. Motion **carried** by voice vote, vote reflected as 5-0.

## 4. Policy Issues for Discussion and Committee Determination

A. Discussion and Possible Action by Committee - None

## 5. Operational Functions Required by Statute, Ordinance or Resolution:

A. Discussion and Possible Action by Committee – None

B. Discussion and Possible Action by Committee to Forward to the Environmental Resource Committee for its Consideration – None

# 6. Policy Issues for Discussion and Committee Determination for Consideration by Environmental Resources Committee - None

## 7. Educational Presentation/Outcome Monitoring Reports for Discussion

A. Presentation on the 2022-2023 Snowmobile Season – Mark Dorow, Recreation Superintendent discussed a report provided by the Recreation Coordinator, Daniel Schmid. The first County Snowmobile Council meeting took place on Sept. 8<sup>th</sup>, 2022 and meetings were held monthly through April 6<sup>th</sup>, 2023. The majority of the twenty-eight snowmobile clubs were in attendance monthly. The season officially opened at 8am on January 21<sup>st</sup>, 2023 with Zones 1,2, 4 and 5. There was a partial opening on Friday, December 23<sup>rd</sup>, 2022 for a small section of the Mountain Bay Trail in Zone 1. The trail system was closed on February 14<sup>th</sup> due to weather and trail conditions but reopened on February 24<sup>th</sup> and stayed open until March 21<sup>st</sup>. Trails would have been open another 20 days if not for the snowstorm that caused a lot of tree damage. Clubs spent a lot of extra time and money cleaning up tree damage. Supplemental funds were received from the State to cover those expenses. For the new season, multiple new mile applications, along with select bridge projects/rehabilitation and trail rehab projects were sent to the DNR. Polley reported on the recreational deputies' snowmobile patrols. The time spent on patrols is reimbursed through a DNR grant. Eighteen citations were issued and seventeen warnings were given. Polley noted that there were accidents in Marathon County this past season but no fatalities. Questions were answered.

B. Project Update – <u>Trails</u> – All trail conditions are looking good and trails are planned to be opened on May 15 if conditions allow. <u>Campgrounds and Boat Launches</u> – Campgrounds open on May 1, 2023, work has been completed to prepare for opening; clean up of a lots of storm damage from winter, grading roads, blowing off sites and roads, plumbing is up and running at Dells and Big Eau Pleine; boat launches hoping to be in by May 6 (city and county) – dependent upon flow volume. <u>Athletic Facilities</u> – Pickleball nets up, Peoples Sports Complex opens April 30 (earlier than normal), new automated line painter – operational and amazing, restroom was added to maintenance garage; Sunnyvale Softball in use by schools with Youth Baseball starting soon. <u>Water Systems</u> – Staff continues to install the water systems and get the parks up and running for the spring/summer. There is an issue with one of the hand wells at Big Eau Pleine. Staff is working on a solution. <u>Playgrounds</u> – Bluegill Bay,

Cherokee and Mission Lake Park playgrounds will be installed after Memorial Day. <u>Arbor Day</u> – Arbor Day planting in Marathon Park on April 27<sup>th</sup>.

B. Marathon Park Water Project – Polley reported that the City of Wausau has agreed to complete the construction administration on this project for the County therefore the project costs, including looping the watermain, installing the lateral to the splashpad and contingency fall within the funds allocated by the County in the 2023 Capital Improvement projects. To proceed with the project the Wausau Water Commission will be asked to accept the watermain through Marathon Park so that it can be looped from Garfield to Stewart Ave without the installation of check valves. Upon acceptance by the water utility the City Council will approve the easement where the watermain is located. The watermain will be a City of Wausau watermain and the laterals will be maintained by the County. The contractor has submitted the contract, bond and insurance and has begun work in the park. Construction of the project is set for July 16, 2023. The City of Wausau Public Works Department will assist with the paving at the end of the project. Questions were answered.

## 8. Announcements

A. Next Meeting Date & Time, Location – Tue., May 30, 2023 at 10:30am, 212 River Dr., Rm 5, Wausau, WI 54403 or webex.

B. Future Agenda Items – Future discussion on Big Eau Pleine Special Deer Hunt

**9.** Adjourn - Motion by Herbst, second by Larson to adjourn the meeting at 11:10am. Motion **carried** by voice vote, vote reflected as 5-0.

# Striving to become the healthiest, safest, and most prosperous county in Wisconsin.

# LEVY SUPPORT ANALYSIS

# PREPARED BY

Wausau/Marathon County Parks, Recreation and Forestry Department

# LEVY SUPPORT ANALYSIS **OVERVIEW**

## **Analysis Purpose**

- To help combat inevitable expense increases.
- To support growth and additional responsibilities sustainably.
- To navigate existing levy limits creatively.
- To maintain quality services and facilities while meeting demands and wants around parks and recreation.
- To explore areas to grow revenue and reduce expenses.

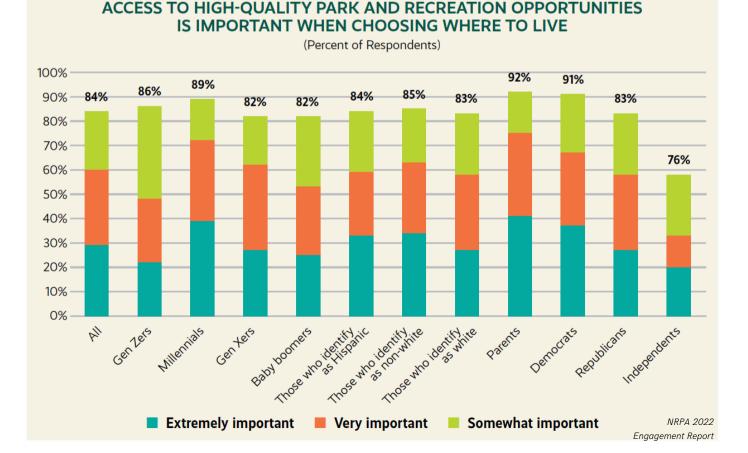

## Goals

The department embraced this analysis as it gave us the opportunity to continue our internal operational review in a focused direction. The focus of that direction being an attempt to accomplish the following goals.

- Find ways to reduce dependence on tax levy dollars for operations and capital projects.
- Increase efficiencies in the department.

By accomplishing these goals, it's our plan to increase service quality and opportunities for recreation.

# LEVY SUPPORT ANALYSIS OVERVIEW

# Joint Department Efficiencies

- Splitting equipment costs
- Additional sources for potential departmental partnership and sharing
  - Equipment can be shared from city and county departments
  - Labor and expertise is accessible from both city and county employees
- Larger service area allows the department to employ specialized trades employees, reducing contracted services expenses.
- Larger staffing size allows for more flexibility.
- Eliminates duplicate expenses in operations, administration, and customer service.
- Consistency for the users of public spaces.

# Joint Department Creation

- 1905 City of Wausau Park Board created
- 1920 County Park Commission created
- 1925 First joint director is hired
  - Director was originally hired as a split position that managed two different park systems.
- 1974 Chapter 27.075 is signed
  - This extended similar authority to what was given to Milwaukee County earlier and allows cooperative agreements between county and city governments for services.
- 1974 Current Park Commission formed

# **Departmental Changes Through The Years**

## Historical Collective Budgets

- 2007 = \$3.12 Million (\$1.72 Million Levy)
- 2012 = \$3.42 Million (\$1.69 Million Levy)
- 2017 =\$5.06 Million (\$2.13 Million Levy)\*
- 2023 = \$6.08 Million (\$2.19 Million Levy)

## Legislative Changes

• Act10 (2014/15)

## **Operational Removals**

 Athens Park, Weston Park, Town of Easton Park, Marathon Park Stage, and select contracted services when advantageous to do so. Largest Operational Additions

- The 400 Block (2011)
- Peoples Sports Complex (2016)\*
- Sylvan Hill Bike Trails (2016)
- Riverlife Park (2019)
- Pickleball Courts (2020)
- White Water Park Improvements (ongoing)
- Athletic Park Upgrades (ongoing)
- Nine Mile Trail Improvements & Expansion
- Fair Operations (2021)
- Expanding Online Capabilities (2021)
- Dog Park (2021)
- Increased Special Events & Programming
- For Profit Amateur Sports

# LEVY SUPPORT ANALYSIS TODAYS OPERATIONS

## Fees

The department's current fee structure is reviewed annually by the department and appropriate changes made with are consideration of cost recovery, usage, and demands. All changes are presented to the Parks Commission for official approval and implementation in operations. When reviewing fees the department often considers historic changes to the fee, improvements or changes to the facility or service that have occurred that may improve the experience, and the pricing of similar products or experience in neighboring communities. The department usually tries to move the current rates consistent with inflation.

## **Budget**

2023 City Budget is \$3,343,883.

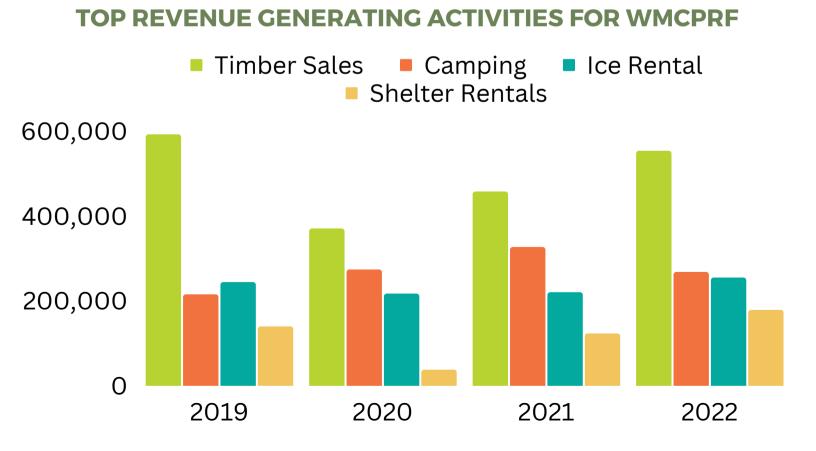

• This city budget has zero effect on the net county budget.

2023 County Budget is \$2,744,014

- Department Enterprise Funds
  - Sports Complex (Goal of 70% Recovery)
  - Nine Mile (Goal of 100% Recovery)
  - Marathon Junction (Goal of 100% Recovery

Nine in 10 people agree that parks and recreation is an important service provided by their local government.

NRPA 2022 Engagement Report

# LEVY SUPPORT ANALYSIS TODAYS OPERATIONS

## **Current Operations and Staffing**

Currently, our department is tasked with overseeing the following

- 3401 acres of Park spread over 51 Parks
  - This includes Athletic Park, Peoples Sports Complex, Sylvan Hill, Nine Mile County Forest Recreation Area, Marathon Park Ice Arenas, Sunnyvale Softball Complex, three pools, Duane L. Corbin Shooting Range, and three campgrounds.
- Wausau's Urban Forest (26,000 Trees and many boulevards)
- 22nd largest county forest out of the 30 in Wisconsin totaling 30714.30 acres spread over 10 forest units and conducts 8-10 sales with an annual average of 617 established for sustainable timber harvest.
- Recreation programming for youth and adult activities and special events.
- Extensive trail systems for Mountain Bikes, Walking/Hiking, Horseback Riding, ATV/UTV Use, and Snowmobiles.

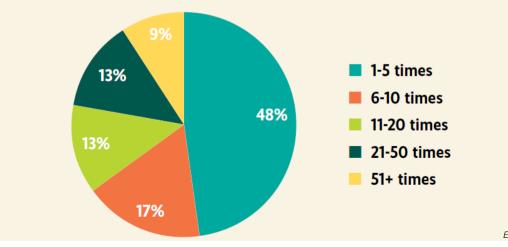

Our department staff of 44 Full Time Employees are all Marathon County Employees

- County Budget Staffing
  - 23.22 FTE
  - 25,647 Seasonal Hours (\$390,144)
- City Budget Staffing
  - 20.78 FTE
  - 36,795 Seasonals Hours (\$499.018)

Marathon County has 611 Miles of County Highway and 770 Miles of Snowmobile Trails

## PEOPLE VISITED THEIR LOCAL PARK AND RECREATION FACILITIES ON AVERAGE NEARLY TWICE A MONTH

(Percentage Distribution of Respondents Who Visited a Park/Recreation Facility During the Past Year)

NRPA 2022 Engagement Report

# LEVY SUPPORT ANALYSIS RECREATION IMPACTS

## **Impacts of Parks and Recreation**

## Access to parks and other public open space promotes greater mental well-being

- Access to parks and green space exposure correlates to reductions in stress and symptoms of depression as well as improved attention and mood. <u>16</u>
- Physician-diagnosed depression was 33 percent higher in the residential areas with the fewest green spaces compared to the neighborhoods with the most. <u>18</u>
- Park quantity, quality, and accessibility are predictors of overall well-being. 20

# Local park and recreation agencies' expenditures support economic activity and job creation.

- The outdoor recreation economy, which includes local parks and recreation, accounted for \$373.3 billion of 2020 U.S. Gross Domestic Product (GDP), or 1.8 percent of the U.S. economy. <u>33</u>
- Systematic review shows economic benefits exceed the cost for park, trail, and greenway infrastructure interventions to increase physical activity and use. <u>58</u>

# Employers and employees are more likely to locate near high-quality park and recreation amenities.

- Eighty-seven percent of corporate executives indicate that quality of life is an important factor when they consider making new facility, expansion, or relocation plans. <u>35</u>
- Investments in improving a community's quality of life can create a virtuous cycle: high-quality places attract workers and employers, which in turn attract more investments and jobs. <u>36</u>

## Parks and recreation boost home values and property tax bases.

- Nearly three in four U.S. adults say that access to a nearby park, playground, open space, or recreation center is an important factor in deciding where they want to live. <u>2</u>
- A review of 33 studies suggests a home value premium of 8 percent to 10 percent for properties adjacent to a passive park. <u>37</u>

## Parks and recreation is a leading source of first jobs for youth and young adults.

- Ninety-six percent of U.S. adults agree there are important benefits that teenagers and young adults gain from their first jobs and volunteer opportunities.
- Ninety percent of U.S. adults want their local park and recreation agency to provide job and volunteer opportunities for youth and young adults.

# LEVY SUPPORT ANALYSIS ELEMENTS TO CONSIDER

## **Operations Modifications**

As department needs and demands change, we are frequently looking at ways to modify our operations. Some of those ideas held presently and previously explored are as follows.

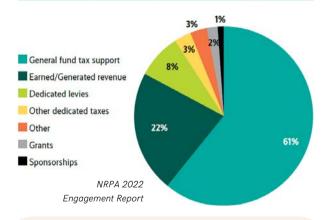

- What work is being done and could it be contracted out?
  - Mowing, restroom cleaning, tree service, mechanical work, or special trades work
- Expand our contracted Park and Recreation Management services to other municipalities.
- Removal or reducing frequencies of non-revenue services.
  - Less manicured green spaces or diminished restroom cleaning frequencies.
- Modifications to time-consuming labor activities.
  - Converting manual cash pay tubs to Credit Card payment only or implementing a remote monitoring system for ice arena mechanicals.
- Continued removal of duplicate services within multiple departments.
  - Joint physical spaces, specialty staff, or duplication operations
- Enterprise budget operations at recreation facilities.

## **Fees**

We do have the ability to affect our revenues through the implantation of new fees or current fee modifications. The department is always looking for smart ways to implement appropriate fees or amenities that provide a good return on investment (ROI). Increasing fees is a solution in some cases but those changes are constantly met with friction from the users, speaking to the idea that users may already be feeling the effect of extensive use fees. Examples of modifications to our fee schedule may include:

- Packaging desirable uses together.
  - Park Visitor Fee/Pass
  - Activity Passes
  - Facility Pass
    - Nine Mile Uses
- Evaluating and negotiating high-volume use contracts with user groups
- Convenience Fees
  - Credit Cards

#### FIGURE 19: SOURCES OF OPERATING EXPENDITURES (AVERAGE PERCENTAGE DISTRIBUTION OF OPERATING EXPENDITURES)

## Sponsorship/Grants

Selling sponsorships and searching for eligible grants s a great way to collect additional revenue or save on expenses for the department. This process can be very timeconsuming and requires substantial staff commitment to due effectively. Time and effort are required to both manage grants and make the proper connections.

# LEVY SUPPORT ANALYSIS ELEMENTS TO CONSIDER

## **Invest in Revenue Sources**

Increasing and investing in revenue sources is a practical way to drive revenues to the department. The department has asked several key questions through this analysis process to see what opportunities exist.

- What facilities are missing from our community that could have a positive ROI?
  - A good example here could be a premier wedding facility in our park system.
- What do we do well that we could expand upon?
  - Campground demand has recently increased and could be expanded.
- Do we have buildings being underutilized that need enhancement?
  - Updates to East Gate Hall could increase its appeal and improve ROI.
- Are we currently showcasing and selling what we have to the public?
  - The Grandstand usage could be improved.
- Do we have a need for services that we are not currently offering?

With any increase in service or amenity, there are several important factors to consider. A good return on investment should be a strong focus moving forward

## WMCPRF Cost Recovery Stats 2017 Cost Recovery is 58% 2022 Cost Recovery is 61%

## **Others Findings**

Marathon County is not the only county or municipality feeling the pressures to continue to look for alternative options. Below are just a few other pieces of published literature on the common struggles many of us are going through. Many similar items mentioned in this analysis are discussed in these documents as mentioned in this analysis.

- Wisconsin Policy Forum
   <u>This Land is Our Land</u>
- Milwaukee County

   <u>Sinking Treasure</u>
- Washington County Parks
  - Fiscal Sustainability Plan

## LEVY SUPPORT ANALYSIS DEPARTMENTS ACTION STEPS

### **Actionable Steps**

The department has created several action steps to pursue for the coming years to help aid us in the direction of continued resource stewardship. The task and implementation categories are named Direct, Moderately Involved, and Complex. Action steps were placed in these categories based on the amount of involvement needed to complete the task, costs to the department, and potential impact or modifications to the current department's operations. Other factors also include actions required outside of the department's control.

## **Direct Tasks & Implementations**

#### 1. Department-wide sponsorship guide.

- This task is to be completed by department staff and is to be implemented by 2024.
- The department has a sponsorship and naming policy established and in place and currently offers sponsorship at several facilities and some programs. Compiling all current sponsorships and finding new alternates to add to the mix will allow potential donors more opportunities to contribute and find recognition within our operations and public spaces.

#### 2. Conduct public outreach with regard to department services and operational expectations.

- This task is to be completed by department staff and is to be completed by 2025.
- The department conducts surveys for programs and facility rentals as well as public outreach for our Comprehensive Outdoor Recreation Plans. We believe that directing an outreach effort towards the topic of our services and their expectations from us can help the department prioritize the publics needs and wants.

## 3. Review Priority based budgeting information to identify specific changes for possible implementation or further evaluation.

- This task is to be completed by department staff and is to be completed by 2025.
- Previously conducted priority-based budgeting analysis can be used to help classify and categorize department services. Reviewing and placing these services will help orientate staff in making fiscally responsible choices in the future.
- 4. Continue interdepartmental partnerships to increase efficiencies.
  - This task is continually completed by department staff
  - The department is constantly exploring opportunities to work with other departments to decrease costs or increase efficiencies of work. As opportunities arrive, the department will continue to monitor and evaluate those opportunities and execute advantageous opportunities.

# LEVY SUPPORT ANALYSIS DEPARTMENTS ACTION STEPS

## **Moderately Involved Tasks & Implementations**

## <u>1. Conduct department-wide fee analysis to compare fee amounts to market rates and modify the structure as needed</u>.

- This task is to be completed by department staff and is to be completed by 2025.
- Several discussions have been had internally about the amount we charge for spaces and the structures we have in place to charge fees. A good analysis should review the fee charged, the full cost of the services including direct and indirect expenses, as well as the structure in which those fees are implemented. Alternate examples of fee structures include potential combination passes or alternate rates for groups.

2. Review program offerings to expand successful opportunities, minimize losses, and evaluate community needs and desires.

- This task is to be completed by department staff and is to be completed by 2024.
- Department programming varies from directly supervised lessons to passive come-andparticipate on-your-own style activities. In an effort to continue to raise revenues within the department a review of offerings should be conducted to look at both financial success as well as community need and demand. Not everything the department does can generate a net revenue so we must continue to be aware of where we can focus on financial success. This task is ongoing with changes to facilities and trends.

3. Identify underutilized spaces and buildings that hold strong profit opportunities and high ROI with proper investment and renovation improvements.

- This task is to be completed by department staff and is to be completed annually through the Capital Improvement program.
- Both the city and county hold a large backlog of deferred maintenance as identified in the Comprehensive Outdoor Recreation Plans. As we continue to work through the Capital Improvements Program to address maintenance needs, the facility will be evaluated for improvements that could generate additional revenue and increase the ROI of the space.

## **Complex Tasks & Implementations**

- 1. Utilize results from public outreach to help shape the department.
  - This task is to be completed by department staff and is to be completed by 2026.
  - This task speaks to the actual implementation of information gathered in Direct Task #2. The department will take the information and apply it appropriately.

2. Implementing improvements of those underutilized spaces and buildings that hold strong profit opportunities and high ROI.

- This task is to be completed by department staff and is to be completed annually through the Capital Improvement program.
- Implementing improvements will be done through Capital Improvements Programs, public/private partnerships, grants, and sponsorships. This will be a continued focus as we move forward.

#### 3. Review department budgets to evaluate enterprise funds and park capital accounts.

- This task is to be completed by department staff and is to be completed by 2026.
- The Department will work closely with finance and administration to evaluate current enterprise funds, potential changes to the budget structure, and utilization of excess park revenues for park capital costs.

#### 4. Review and evaluate the task tracking/job costing process.

- This task is to be completed by CCIT and department staff and is to be completed by 2025.
- Task tracking is a way for the department to monitor and assign the location and quantity of work being completed to different tasks and parks within the department. There are several options for tracking and utilization of this information. Comparing our process to others may shine some light on possible areas of change or improvement.

#### 5. Review of evaluation of the Carbon Credits program.

- This task is to be completed by department staff and is to be completed by 2026
- The Carbon Credit program allows public land owners the option to sell credits for carbon captured by the forests on their property. This program is complicated and could be difficult to achieve in the current political climate and may impact state industries such as manufacturing. If pursued, selling of any carbon credits must align with the County Forest Law State Statue 28.11 which requires sustainable timber harvesting.

## LEVY SUPPORT ANALYSIS FUTURE ALTERNATIVES

## Legislative Controlled Funding Mechanisms

State leaders, if desired, could provide additional funding or support for conservation and recreation by taking several steps to modify existing legislation which would allow for some of the following changes.

- Independent District to Collect Dedicated Tax
  - A change in state law would be needed to authorize counties or voters (or both) to approve the creation of an independent park district to levy and collect a dedicated property or sales tax for the parks.
- Putting the Parks Tax Questions to Voters
  - A new state law in Wisconsin could set a ceiling but also could allow voters to exceed it as is the case for local governments and school districts in Wisconsin. A similar ceiling and referendum provision also could be used if elected officials determined that a sales tax is a more appropriate dedicated funding source for the parks.
- Using a Dedicated Sales Tax and Sharing it with municipalities
  - As an example, in Sonoma County, one-third of the proceeds from the dedicated parks sales tax is shared with the county's municipalities to support their parks and recreational facilities.
- Other Dedicated Tax Options
  - Redirecting state real estate transfer tax
  - Sales Tax on Outdoor Gear

The above options can be found in their entirety in the following reports. Staff will continue to follow state legislation with regard to parks, open spaces, and natural resources to identify any opportunities.

| Description                    | Nine Mile Forest and Deprestion and is 4,000 some and offer with some first   |
|--------------------------------|---|
| Description<br>Summary / Scope | Nine Mile Forest and Recreation area is 4,900 acres and offers outdoor recreation opportunities such as hiking, mountain biking, cross country skiing, snowshoeing, hunting, birdwatching, berry picking, etc.  |
|                                | Nine Mile is a key economic driver for Marathon County hosting over 100,000 visitors annually. Nine Mile is host to large community events that are attended by local citizens as well as people from outside of the County, region and state. COVID-19 caused many events to cancel and required a reduced usage of the recreation area hurting the county's revenue as well as the local economy. Reducing the usage of the recreation area was required for social distancing and facility space. It was recognized that the Nine Mile Chalet's HVAC system and sewer and water facilities were not adequate for providing clean and current facilities. The demand for outdoor recreation increased during the COVID-19 pandemic when people were stuck in their homes. It is therefore anticipated that the demand for the facility will increase. |
|                                | This facility serves all of Marathon Co and beyond. Many of the uses are free, providing opportunities for those that cannot afford to pay for other recreational opportunities. Some of the uses are fee based however the County has means to assist citizens that cannot afford the fee programs. Upgrading the chalet will provide users with a facility that has adequate mechanical systems and restroom facility increasing the ability to host community events.  |

#### **Relation to Other Projects (if applicable):**

#### Alternatives Considered:

- 1. Closing Nine Mile Chalet
- 2. Replacing just the septic tanks
- 3. Doing Nothing

#### **Reasons Alternatives Rejected:**

- 1. The Chalet is utilized year round and is a revenue source for the County. It is an asset that has deferred maintenance
- 2. After speaking with Conservation Planning and Zoning this is not an option for a 25 year old system
- 3. Same as #2 above

PROJECT PURPOSE(S) - Check all that apply and please explain below: The Ranking Form related area is noted in RED at the end of each question below.

- This project is required to meet legal, mandated, or contractual obligations? #1 Regulatory Compliance
- This project will result in the protection of life and/or property and maintain/improve public health and safety? **#2 Public Safety / Health Impact**
- This project will result in reductions in expenditures (save money)? #5A Fiscal Criteria
- This project will result in a positive return for Marathon County. #6 Growth/Economic Development
- This project repairs/replaces an important existing physically deteriorated or functionally obsolete county facility, system, service, or equipment? **#3** Existing Infrastructure End of Life
- This project provides a new service, facility, system, or equipment. #7 Consistency with County Objectives
- This project would generate sufficient revenues to be essentially self-supporting in its operations. **#6 Growth/Economic Development**

- This project would make existing facilities or personnel more efficient or increase their use with minimal or no operating cost increase? **#5A Fiscal Criteria**
- This project will benefit and/or be utilized by other Marathon County departments? #8 Public Benefit
- This project is consistent with an overall County plan, policy, or goal; and is necessary to complete a project that has begun or under construction? #4 Unique Circumstances
   Please explain all checked boxes below:

#1 Regulatory Compliance & #3 Existing Infrastructure End of Life: Private septic systems must be in compliance with County Code of ordinances Chapter 15. The current septic system at Nine Mile is 30 years old. The septic system was installed in 1992 with a capacity to serve 500 people. The current system has proven to not have the capacity to serve 500 people and therefore the department has restricted the group sizes utilizing the facility. In discussions with Conservation Planning and Zoning the septic system needs to be replaced.

#2 Public Safety/Health Impact: The documented increased usage of parks, forests and open space during the COVID-19 pandemic has proven the importance of a community's ability to offer these types of facilities to their community. Outdoor recreation provides community members with physical, social and mental health benefits. The County Forest 15 Year Comprehensive Land Use Plan recognizes Nine Mile Forest and Recreation Area as an important facility that supports the health benefits and the economy of Marathon County and offers many types of outdoor recreation opportunities. The plan maximizes the use of the County Forest. Nine Mile is a facility that the community, service groups, businesses and local school districts depend on to offer activities and events for their members and the community. The nine mile chalet currently does not meet the health and safety standards we have now set with the threat of COVID-19. Upgrading the Chalet's HVAC system and water and sewer infrastructure will provide a safe facility of all the users of the recreation area. These upgrades will also adequately support the current and future uses of the facility allowing for increased capacity and more uses.

#6 Growth/Economic Development & # 8 Public Benefit: Enhancing the Chalet and updating the water and sewer infrastructure to meet code and to support the uses of the forest meet Objective 10.12 of the Strategic Plan; maintain infrastructure to support economic growth. Enhanced amenities will attract more users to Nine Mile and allow for increased fees for facility usage. Strategy F, securing state and federal funding to maintain infrastructure and support economic growth speaks to the utilization of ARPA funds to enhance our outdoor recreation facilities. Outdoor recreation is an economic asset that Marathon County and the State of WI have. Outdoor Recreation draws visitor to the area, helps to retain current employees and attract new talent and enhances the economy of Marathon County. Updating the water and sewer systems also fit within Chapter 8 Infrastructure of the Comprehensive Plan. The Comprehensive Plan Chapter 11 is dedicated to recreation, tourism and cultural resources, identifying recreation as an important part of the operations of Marathon County. This chapter states that every County park should provide the "base" recreation facilities including roads, parking, restrooms, drinking water, etc. The septic system for the restroom facilities currently offered is not adequate for the increased use of Nine Mile and the large events that want to utilize Nine Mile.

#### PROJECT COST

| Estimated Cost Components                              | Cost Allocatio                    | n Per Fiscal   | Year               |        |  |  |

|  | Repair / Maintenance Costs                       | \$10,000 |  |  |
|  | Other Non-Capital Costs                          | \$0.00   |  |  |
|  | Existing Operating Costs                         | \$20,000 |  |  |

| Future Estimated Costs #5A Fiscal Criteria | Annual Operating Costs   | \$4,000 |
|--|--------------------------|---------|
|  | Annual Maintenance Costs | \$3,000 |
|  | Other Non-Capital Costs  | \$0.00  |
|  | Future Operating Costs   | \$7,000 |
| Estimated Return on Investment (in years)  |                          | \$      |

#### Explain any other annual benefits to implementing this project:

The Chalet will be able to accommodate larger groups and events therefore increasing the revenue to the County. This will also bring the septic system up to compliance as the County should set an example.

## 5 YEAR FORECASTED PROJECTS (if you want a project considered please put on this list) This must be filled out.

| Description<br>Summary / Scope | Marathon County operates three large campgrounds totaling 162 campsites and 2 group campgrounds that attract visitors from Wisconsin, Illinois, Minnesota, Michigan and around the country. The majority of the visitors to the Marathon County campgrounds come from within the mid-west region. During the COVID-19 pandemic, camping has proven to be extremely important to the County and the local business within the County. Camping provides individuals, families and groups the ability to enjoy the great outdoors and safely distance themselves from others if necessary.  |
|--------------------------------|--|
|                                | The Dells of Eau Claire County Park is located in the center part of the State of Wisconsin and<br>in the eastern rural portion of Marathon County. The area is mainly agricultural with the Eau<br>Claire River running through it. The County park was acquired in 1923 and is currently 282<br>acres. The park is one of the most unique and beautiful parks in the Marathon County Park<br>system providing access to the state scientific area that includes many natural rock<br>outcroppings and waterfalls. Visitors can climb on the rocks, hike the trails along the river to a<br>high bridge crossing the rapids below or swim at the park beach. The trails of Eau Claire Dells<br>also connect to the Ice Age trail. Dells of Eau Claire Park is a hidden gem and once visitors<br>find it they come back time after time.<br>The park plays host to campers, walkers, runners, picnickers, swimmers, weddings, reunions,<br>birthdays, etc. seeing 50,000+ visitors throughout the year. The park contains a large enclosed |

| shelter built from the Civilian Conservation Corp that includes a large stone fireplace and can accommodate 70+ people for all types of events and gatherings. Two other shelters are also reservable within the park. It is estimated that over 3,000 people attended a scheduled event within one of the shelters.   |
|--|
| Visitors come from the local area, all over the State of Wisconsin and from other states to experience the park through the walking trails, playground, swimming beach or access to the Eau Claire River and the Ice Age Trail. Another large amenity of the Dells of Eau Claire Park is the 28 site campground. 602 reservations were made in 2021 at one of 16 reservable sites which require a two night minimum. It is estimated that over 5000 people stayed in this campground in 2021. Camping revenue from the County's three campgrounds including the Dell of Eau Claire increased in 2020 from 2019 from \$198,515 to \$249,198. Revenues increased again in 2021 to \$258,546. It is anticipated that camping will continue to grow. |
| Surveys from past campers have indicated the need for additional restrooms with running water and shower facilities. In addition providing more camping opportunities such as camper cabins will allow more visitors to come to the Dells of Eau Claire Count park and experience a truly unique facility.   |

#### **Relation to Other Projects (if applicable):**

This project could be completed at the same time as the Big Eau Pleine project which might result in some cost savings.

#### Alternatives Considered:

- 1. Status Quo
- 2. Installing restrooms only
- 3. Close Campground due to no dump station

#### **Reasons Alternatives Rejected:**

- 1. Currently no running water other than well pumps for potable water and does not increase the ability for users to practice good hygiene and wash their hands.
- 2. If restrooms are installed with running water it is cost effect to add the showers as well to enhance the amenity of the park/campgrounds.
- 3. A dump station is needed and can contribute to the revenue generation of the County.

## PROJECT PURPOSE(S) - Check all that apply and please explain below: The Ranking Form related area is noted in RED at the end of each question below.

| $\boxtimes$ | This project is required to meet legal, mandated, or contractual obligations?<br># 1 Regulatory Compliance  |
|-------------|---|
| $\boxtimes$ | This project will result in the protection of life and/or property and maintain/improve public health and safety? <b>#2 Public Safety / Health Impact</b>                                   |
|             | This project will result in reductions in expenditures (save money)? #5A Fiscal Criteria  |
| $\boxtimes$ | This project will result in a positive return for Marathon County.<br>#6 Growth/Economic Development  |
|             | This project repairs/replaces an important existing physically deteriorated or functionally obsolete county facility, system, service, or equipment? #3 Existing Infrastructure End of Life |
| $\boxtimes$ | This project provides a new service, facility, system, or equipment.<br>#7 Consistency with County Objectives   |
|             | This project would generate sufficient revenues to be essentially self-supporting in its operations. #6 Growth/Economic Development   |
|             | This project would make existing facilities or personnel more efficient or increase their use with minimal or no operating cost increase? <b>#5A Fiscal Criteria</b>                        |
|             | This project will benefit and/or be utilized by other Marathon County departments?<br>#8 Public Benefit   |
|             |   |

This project is consistent with an overall County plan, policy, or goal; and is necessary to complete a project that has begun or under construction? **#4 Unique Circumstances** 

#### Please explain all checked boxes below:

#1 Regulatory Compliance – Administrative Code 79 governs campgrounds and is enforced by the Health Department specifically ATCP 79.15(2)(a). "The operator shall provide a sanitary dump station in the ratio of 1 of every 300 independent campsites or fraction thereof that are not connected to a POWTS or municipal sewer system." At this time, the Dells of the Eau Claire Park campground is not in compliance with this requirement, is not eligible to provide alternative method of disposal, and no variance in on record allowing this criterion to not be met.

#2 Public Safety/Health Impact - COVID-19 highlighted the importance for increased sanitation, adequate facilities and adequate staffing. Camping provides a cost effective reprieve to the stressful and busy lives of individuals. Those effected by COVID-19 in the area may not have been able to afford traveling too far from home. The campgrounds as well as the parks were an outlet for residents of Marathon County, the State of Wisconsin and surrounding states to social distance, enjoy the fresh air and get out of their homes even if it was only for one night. Use of the County Park facilities increased by 300% in June-August of 2020 and 2021 based on a google mobility poll. The increased demand on the park facilities increased the need for staff to clean the facilities and increased the maintenance needed on the vault toilets and park amenities. Due to COVID-19 the frequency of cleaning and maintenance of the facilities was increased from daily to twice daily or weekly to daily in the areas typically less frequented. Cleaning and disinfecting the facilities was of utmost importance to provide visitors with a safe experience.

The addition of a shower/restroom facility will increase the facility options for the park users. It will provide a facility with running water for visitors to properly wash their hands. A shower/restroom facility allows campers to practice good hygiene. This addition has been a requested amenity for campers in the past and continued to be requested this last year by seasoned campers as well as new campers that may have experienced camping for the first time during COVID-19. These facilities will also attract users to stay longer within the campground giving them the fresh air they need to increase their quality of life while also increasing the revenue to the County that can be utilized to offset the cost of the demand for more staff.

The addition of camper cabins will increase the opportunities that campers have to experience camping. Individuals and families who may not be able

#6 Growth/Economic Development & #7 Consistency with County Objectives - Adding running water to the campgrounds with the construction of a new restroom/shower facility meets Objective 10.12 of the Strategic Plan; maintain infrastructure to support economic growth. Enhanced amenities will attract more users to the campground and allow for increased fees for facility usage. Strategy F, securing state and federal funding to maintain infrastructure and support economic growth speaks to the utilization of ARPA funds to enhance our outdoor recreation facilities. Outdoor recreation is an economic asset that Marathon County and the State of WI have. Outdoor Recreation draws visitor to the area, helps to retain current employees and attract new talent and enhances the economy of Marathon County. The Comprehensive Plan Chapter 11 is dedicated to recreation, tourism and cultural resources, identifying recreation as an important part of the operations of Marathon County. This chapter states that every County park should provide the "base" recreation facilities including roads, parking, restrooms, drinking water, etc. The addition of the lift station is required per state health code and would also fit within Chapter 8 Infrastructure of the Comprehensive Plan.

#### **PROJECT COST**

| Future Estimated Costs #5A Fiscal Criteria | Annual Operating Costs   | \$3500   |
|--|--------------------------|----------|
|  | Annual Maintenance Costs | \$6500   |
|  | Other Non-Capital Costs  | \$0.00   |
|  | Future Operating Costs   | \$10,000 |
| Estimated Return on Investment (in years)  |                          | \$       |

#### Explain any other annual benefits to implementing this project:

Enhancing the amenities of the campground will make the campgrounds more marketable and desirable by visitors. Also adding amenities to the campgrounds will allow for higher fees for use of these amenities

## 5 YEAR FORECASTED PROJECTS (if you want a project considered please put on this list) This must be filled out.

Marathon County Parks, Recreation, and Forestry Department Attn: Jamie Polley 210 River Drive Wausau, WI 54403

Subject: Letter of Support for Budget Request for a Dump Station at the Dells of the Eau Claire

#### Dear Jamie -

On behalf of the Marathon County Health Department, I am writing to provide context for the budget request made by the Marathon County Parks, Recreation, and Forestry Department for the installation of a dump station at the Dells of the Eau Claire Campground. From a compliance as well as a public health and environmental safety perspective, this upgrade is necessary

Administrative Code 79 governs Campgrounds and is enforced by the Health Department. Specifically, according to ATCP 79.15(2)(a), "The operator shall provide a sanitary dump station in the ratio of 1 of every 300 independent campsites or fraction thereof that are not connected to a POWTS or municipal sewer system." At this time, the Dells of the Eau Claire Campground is not in compliance with this requirement, is not eligible to provide alternative method of disposal, and no variance in on record allowing this criterion to not be met.

Not only are dump stations required for a campground of this size, a dump station plays a crucial role in maintaining sanitary conditions in our campgrounds. With the increasing number of visitors engaging in outdoor activities, such as camping and RV travel, the absence of a designated facility for the proper disposal of waste poses a potential health hazard. A dump station would alleviate this concern by providing a safe and convenient location for individuals to dispose of their waste, thereby reducing the risk of contamination and the spread of diseases.

Moreover, the installation of a dump station aligns perfectly with the core values and objectives of Marathon County. By promoting proper waste management practices, we not only safeguard the health and well-being of our residents but also demonstrate our commitment to preserving the natural beauty and ecological integrity of our parks and campgrounds. It is essential that we offer visitors a sustainable and responsible means of waste disposal, ensuring the longevity and cleanliness of our recreational areas. Furthermore, a dump station would attract a wider range of visitors to our parks and campgrounds, including RV enthusiasts and campers who currently have limited options for waste disposal. By accommodating their needs, we can foster increased tourism, boost local businesses, and stimulate economic growth within our community. This, in turn, would provide additional revenue streams for the Parks and Recreation Department, allowing for further improvements and enhancements to our facilities.

Allocating necessary funds for the installation of a dump station as requested by the Marathon County Parks, Recreation, and Forestry Department would bring the Dells of the Eau Claire Campground into compliance with ATCP 78. Additionally, this investment will yield substantial long-term benefits for our community, enhancing public health, promoting environmental stewardship, and bolstering our local economy.

I commend you for your dedication to the well-being of our community. Should you require any additional information or have any questions, please do not hesitate to contact me.

Yours sincerely,

Kate Florek, MPH Environmental Health and Safety Director Marathon County Public Health Department

# ORDERING INFORMATION

CXT<sup>®</sup> Precast Concrete Products manufactures restroom, shower and concession buildings in multiple designs, textures and colors. The roof and walls are fabricated with high strength precast concrete to meet all local building codes and textured to match local architectural details. All CXT buildings are designed to meet A.D.A. and to withstand heavy snow, high wind and category E seismic loads. All concrete construction also makes the buildings are prefabricated and delivered complete and ready-to- use, including plumbing and electrical where applicable. With thousands of satisfied customers nationwide, CXT is the leader in prefabricated concrete restrooms.

1. ORDERING ADDRESS(ES): CXT Precast Concrete Products, 606 N. Pines Road, Suite 202, Spokane Valley, WA 99206

- 2. ORDERING PROCEDURES: Fax 509-928-8270
- 3. PAYMENT ADDRESS(ES): Remitting by check: CXT, Inc., PO Box 676208, Dallas, TX 75267-6208

Remitting by ACH or wire transfer: Beneficiary: CXT, Inc. Beneficiary Bank: PNC Bank, Pittsburgh, PA Account: 1077766885 ABA/Routing: 043000096 Email remittance details to AR@lbfoster.com

4. WARRANTY PROVISIONS: CXT provides a one (1) year warranty. The warranty is valid only when concrete is used within the specified loadings. Furthermore, said warranty includes only the related material necessary for the construction and fabrication of said concrete components. All other non-concrete components will carry a one (1) year warranty. CXT warrants that all goods sold pursuant hereto will, when delivered, conform to specifications set forth above. Goods shall be deemed accepted and meeting specifications unless notice identifying the nature of any non-conformity is provided to CXT in writing within the specified warranty. CXT, at its option, will repair or replace the goods or issue credit for the customer provided CXT is first given the opportunity to inspect such goods. It is specifically understood that CXT's obligation hereunder is for credit, repair or replacement only, F.O.B. CXT's manufacturing plants, and does not include shipping, handling, installation or other incidental or consequential costs unless otherwise agreed to in writing by CXT.

This warranty shall not apply to:

1. Any goods which have been repaired or altered without CXT's express written consent, in such a way as in the reasonable judgment of CXT, to adversely affect the stability or reliability thereof;

2. To any goods which have been subject to misuse, negligence, acts of God or accidents; or

3. To any goods which have not been installed to manufacturer's specifications and guidelines, improperly maintained, or used outside of the specifications for which such goods were designed.

5. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE): All prices subject to the "Conditions of Sale" listed on the CXT quotation form.

Customers are responsible for marking exact location building is to be set; providing clear and level site, free of overhead and/or underground obstructions; and providing site accessible to normal highway trucks and sufficient area for the crane to install and other equipment to perform the contract requirements. Customer shall provide notice in writing of low bridges, roadway width or grade, unimproved roads or any other possible obstacles to access. CXT reserves the right to charge the customer for additional costs incurred for special equipment required to perform delivery and installation. Customers will negotiate installation on a projectSource**well** 

Contract # 081721-CXT

by-project basis, which shall be priced as separate line items. For more information regarding installation and truck turning radius guidelines please see our website at <a href="http://www.cxtinc.com">http://www.cxtinc.com</a>.

In the event delivery of the building/s ordered is/are not completed within 30 days of the agreed to schedule through no fault of CXT, an invoice for the full contract value (excluding shipping and installation costs) will be submitted for payment. Delivery and installation charges will be invoiced at the time of delivery and installation.

Should the delivery and installation costs increase due to changes in the delivery period, this increase will be added to the price originally quoted, and will be subject to the contract payment terms.

In the event that the delivery is delayed more than 90 days after the agreed to schedule and through no fault of CXT, then in addition to the remedies above, a storage fee of  $1-\frac{1}{2}$ % of contract price per month or any part of any month will be charged.

\*\*Customer is responsible for all local permits and fees.

6. DELIVERY CHARGE: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers.

7. PAYMENT TERMS: All orders are cash in advance. At CXT's discretion, credit may be given after approval of credit application. Payment to CXT by the purchaser of any approved credit amount is net 30 days after submission of invoice to purchaser. Interest at a rate equal to the lower of (i) the highest rate permitted by law; or (ii) 1.5% per month will be charged monthly on all unpaid invoices beginning with the 35th day (includes five (5) day grace period) from the date of the invoice. Under no circumstance can retention be taken. If CXT initiates legal proceeding to collect any unpaid amount, purchaser shall be liable for all of CXT's costs, expenses and attorneys' fees and costs of any appeal.

8. LIMITATION OF REMEDIES: In the event of any breach of any obligations hereunder; breach of any warranty regarding the goods, or any negligent act or omission of any party, the parties agree to submit all claims to binding arbitration. Any settlement reached shall include all reasonable costs including attorney fees. In no event shall CXT be subject to or liable for any incidental or consequential damages. Without limitation on the foregoing, in no event shall CXT be liable for damages in excess of the purchase price of the goods herein offered.

9. DELIVERY INFORMATION: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers. Use the information below to determine the origin:

• F.O.B. 6701 E. Flamingo Avenue, Building 300, Nampa, ID 83687 applies to: AK, CA, HI, ID, MT, ND, NV, OR, SD, UT, WA, WY.

| Description<br>Summary / Scope | Complete an architectural study for the Ice Arena to determine needs of all users, needs of the County. This study would meet with all user groups, develop preliminary architectural plans and provide cost estimate for desired facility. |
|--------------------------------|---|
|                                | Project submitted to complete this year in 2023   |

### Relation to Other Projects (if applicable):

Adopted as part of the Westside Master Plan to address aging ice arena.

### Alternatives Considered:

- 1. Do nothing
- 2.
- 3.

#### **Reasons Alternatives Rejected:**

- 1. Current arena is operating on borrowed time with 50+ year old refrigeration system
- 2.
- 3.

PROJECT PURPOSE(S) - Check all that apply and please explain below: The Ranking Form related area is noted in RED at the end of each question below.

- This project is required to meet legal, mandated, or contractual obligations? #1 Regulatory Compliance
- This project will result in the protection of life and/or property and maintain/improve public health and safety? **#2 Public Safety / Health Impact**
- This project will result in reductions in expenditures (save money)? #5A Fiscal Criteria
- This project will result in a positive return for Marathon County. #6 Growth/Economic Development
- This project repairs/replaces an important existing physically deteriorated or functionally obsolete county facility, system, service, or equipment? #3 Existing Infrastructure End of Life
- This project provides a new service, facility, system, or equipment. #7 Consistency with County Objectives
- This project would generate sufficient revenues to be essentially self-supporting in its operations. **#6 Growth/Economic Development**
- This project would make existing facilities or personnel more efficient or increase their use with minimal or no operating cost increase? **#5A Fiscal Criteria**
- This project will benefit and/or be utilized by other Marathon County departments? #8 Public Benefit
- This project is consistent with an overall County plan, policy, or goal; and is necessary to complete a project that has begun or under construction? **#4 Unique Circumstances**

### Please explain all checked boxes below:

#1 Regulatory Compliance: Currently the County has contracts with Wausau School District, Youth Hockey, Wausau Cyclones, Figure skating and many other hockey leagues for ice use. To fulfill this obligation the County needs to address the current ice arena and future uses.

#2 Public Safety/Health Impact: The current ice arena has a number of items that are in need of repair including the roof and refrigeration system. To keep the ice arena operational and safe these items need to be addressed.

#6 Growth/Economic Development: Ice rentals are the park department's 2<sup>nd</sup> highest revenue source and in working with the user groups there is an increased demand for ice time. This would equate to additional revenue for the County. Currently the ice is only seasonal due to the construction of the current arena with no insulation or cooling system. In completing the architectural study additional revenue opportunities will be identified.

#3 Existing Infrastructure/End of Life: The main sheet of ice was constructed in 1984 with a used refrigeration system from Eagle River. The refrigeration system has reached its end of life and if the refrigeration system breaks down there is no ability to make ice.

#7 Consistency with County Objectives: The County strives to be the Healthiest, Safest and Most Prosperous. The Ice arena provides a quality of life amenity to the community where youth and adults can be active, engage in a safe, healthy and social activity. An ice arena is also a revenue source for the county and with increased demand and an improved facility additional revenue options can be identified.

#8 Public Benefit: Completing the architectural study will identify opportunities to make this facility into a facility that county department and the community can gather, host events and meetings and utilize when needed.

| Estimated Cost Components   |                       | Cost Allocatio                         | on Per Fiscal | Year     |

### Explain any other annual benefits to implementing this project:

This architectural study is needed to determine the facility size, usage, future operations, etc. The architectural study will take approximately 3-4 months and is recommended to be completed from October to March when the user groups are the most engaged. It is requested that this project be brought forward yet this year in 2023.

# 5 YEAR FORECASTED PROJECTS (if you want a project considered please put on this list) This must be filled out.

| Description<br>Summary / Scope | Eastgate Hall is the largest meeting and event space other than the ice arenas in the parks system and generates revenue from rentals such as weddings, public gatherings, family reunions, etc. It is also used for elections, numerous County sponsored events and the Wisconsin Valley Fair. Eastgate hall has a lot of history as well. Previously known as the Youth Building it hosted Martin Luther King Jr in 1967. The building has changed over the years however the last time it was updated was in 1998. At that time the County allocated \$700,000 to add restrooms on the main level, updated the air handling system, and installed new flooring, windows and siding.   |
|--------------------------------|--|
|                                | Last year the County Board adopted the Westside Master Plan that included the facilities within Marathon Park. The Master Plan identifies Eastgate Hall as one of the park's busiest venues that serves many uses and generates revenue for the County. It's function and flexibility can be enhanced with several upgrades, including restoration of the clerestory windows, update of the ceiling material and acoustical modifications, replacement of the floor material (and underlying base as necessary), remodeling of the main entrance to make it more open and inviting, and installation of air conditioning to enable comfortable summer use. Increasing the efficiency and attract ability of this facility will make it more attractive to the community. |

Facilities & Capital Management Dept• 1000 Lakeview Dr Ste 300 • Wausau, WI 54403 • (715) 261-6980

### **Relation to Other Projects (if applicable):**

Renovation to Eastgate Hall was identified as a project within the adopted Westside Master Plan. There will be a number of project to move the Westside Master Plan forward over the next 15 years.

#### **Alternatives Considered:**

- 1. Do nothing
- 2. Renovate either the interior or exterior only
- 3.

#### **Reasons Alternatives Rejected:**

- 1. The building will continue to age and the backlog of deferred maintenance will increase if nothing is completed. In addition the building will become less desirable to rent.
- 2. Renovating only the exterior may make the building more attractive however it does not address the aging infrastructure. Also renovating only the interior addresses the deferred maintenance however it does not draw users to the facility.
- 3.

# PROJECT PURPOSE(S) - Check all that apply and please explain below: The Ranking Form related area is noted in RED at the end of each question below.

- This project is required to meet legal, mandated, or contractual obligations? #1 Regulatory Compliance
- This project will result in the protection of life and/or property and maintain/improve public health and safety? **#2 Public Safety / Health Impact**
- This project will result in reductions in expenditures (save money)? #5A Fiscal Criteria
- This project will result in a positive return for Marathon County. #6 Growth/Economic Development
- This project repairs/replaces an important existing physically deteriorated or functionally obsolete county facility, system, service, or equipment? #3 Existing Infrastructure End of Life
- This project provides a new service, facility, system, or equipment. #7 Consistency with County Objectives
- This project would generate sufficient revenues to be essentially self-supporting in its operations. **#6 Growth/Economic Development**

- This project would make existing facilities or personnel more efficient or increase their use with minimal or no operating cost increase? **#5A Fiscal Criteria**
- This project will benefit and/or be utilized by other Marathon County departments? #8 Public Benefit
- This project is consistent with an overall County plan, policy, or goal; and is necessary to complete a project that has begun or under construction? #4 Unique Circumstances
   Please explain all checked boxes below:

#5 Fiscal Criteria: Currently the building flooring and ceiling tiles are failing requiring increased maintenance. The windows have also reached their life and are not energy efficient resulting in increased heating costs. Addressing these issues will reduce maintenance time and materials as well as reducing cost for heating the building.

#6 Growth/Economic Development: Eastgate Hall is currently a revenue generating facility. Increasing the efficiency as well as the attractability of the facility will increase revenue from rentals. Enhanced amenities will also allow for the rates to be increased.

#3 Existing Infrastructure/End of Life: The flooring, ceiling tiles and windows were installed in the building 20 years ago. The ceiling tiles and floor tiles are becoming unattached. Replacement tiles do not match the existing due to the age and the windows are not energy efficient. Many are no longer able to be opened.

#8 Public Benefit: Eastgate Hall is utilized by a number of county departments for a number of uses. During COVID Eastgate Hall was used as a back up court site and COVID testing. During this time it was very apparent that the building lacked the proper acoustics for large events and meetings. Eastgate Hall is also used for a number of county events such as Children's Festival and Martin Luther King Day On. This building will continue to be available to county meetings and activities.

#### 5/15/23, 3:21 PM

Soil Resistance

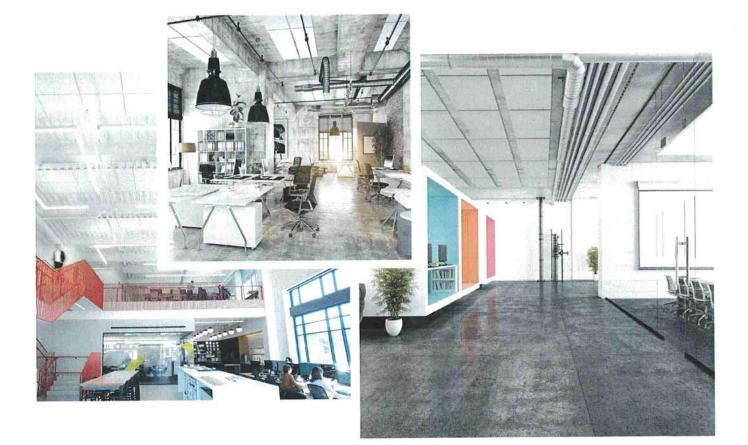

Fire Rating: Class A Flame-spread 25 or less, smoke developed 50 or less

What do these features mean?

Buy LYRA PB Direct Apply Ceiling Tiles | Kanopi by Armstrong Ceilings

# **Acoustics & style**

Reduce distracting noise

Keep the vibe you love but bring down the noise that plagues spaces with open ceilings.

#### Easy & fast installation

Installations can happen in less than a day, potentially eliminating the need to close!

#### Happy customers & employees

Take care of the noise complaints and improve your employee's concentration.

PO #

This quote is valid for up to 30 days and pricing is subject to change. If you agree to our offer and would like to pay with a credit card, click on the "Pay Now" button, or sign and return the service agreement with your check enclosed. For your convenience we accept Visa, Master Card, Discover or personal check. Please note that the removal/reinstallation of window treatments, furniture, home security alarms, etc. are the responsibility of the homeowner, and should be removed prior to our arrival. This quote does not include labor or materials for work not specifically listed, including, but not limited to, painting, staining, drywall, or siding. It also excludes any and all unforeseen or unknown conditions and issues, including, but not limited to, repairs associated with wood rot, home security systems, fitment of drapes/shades and/or curtains. Upon your request, Kolbe ServicePro® will provide you with an estimate to perform such other repairs.

Thank you for contacting us. Kolbe ServicePro takes great pride in offering top quality service and is continuously seeking ways to help ensure valued customers, such as you, get the most out of their investment. If you have any questions, please contact me at 877-565-2301.

Sincerely, The Kolbe ServicePro team

Please make check payable to Kolbe ServicePro, and mail to Kolbe ServicePro, 1330 S. 11th Avenue, Wausau, WI 54401.

This quote is valid for up to 30 days and pricing is subject to change. If you agree to our offer and would like to pay with a credit card, click on the "Pay Now" button, or sign and return the service agreement with your check enclosed. For your convenience we accept Visa, Master Card, Discover or personal check. Please note that the removal/reinstallation of window treatments, furniture, home security alarms, etc. are the responsibility of the homeowner, and should be removed prior to our arrival. This quote does not include labor or materials for work not specifically listed, including, but not limited to, painting, staining, drywall, or siding. It also excludes any and all unforeseen or unknown conditions and issues, including, but not limited to, repairs associated with wood rot, home security systems, fitment of drapes/shades and/or curtains. Upon your request, Kolbe ServicePro® will provide you with an estimate to perform such other repairs.

Thank you for contacting us. Kolbe ServicePro takes great pride in offering top quality service and is continuously seeking ways to help ensure valued customers, such as you, get the most out of their investment. If you have any questions, please contact me at 877-565-2301.

Sincerely, The Kolbe ServicePro team

Please make check payable to Kolbe ServicePro, and mail to Kolbe ServicePro, 1330 S. 11th Avenue, Wausau, WI 54401.

| Description<br>Summary / Scope | Marathon County operates three large campgrounds totaling 162 campsites and 2 group campgrounds that attract visitors from Wisconsin, Illinois, Minnesota, Michigan and around the country. The majority of the visitors to the Marathon County campgrounds come from within the mid-west region. During the COVID-19 pandemic, camping has proven to be extremely important to the County and the local business within the County.  |
|--------------------------------|---|
|                                | Camping revenue from the County's three campgrounds including the Big Eau Pleine increased in 2020 from 2019 from \$198,515 to \$249,198. Revenues increased again in 2021 to \$258,546. It is anticipated that camping will continue to grow. Camping provides individuals, families and groups the ability to enjoy the great outdoors and safely distance themselves from others if necessary.   |
|                                | This project will enhance a public County Park through the addition of shower/restroom facilities in the two campgrounds of Big Eau Pleine Park. The campgrounds currently have vault toilets and pump wells for potable water. Big Eau Pleine Park is a sizeable park containing 1,450 acres of second-growth mixed hardwoods forming a two-mile peninsula thrust deep into the waters of the Big Eau Pleine Reservoir. The park is a public space that serves the people of Marathon County as well as residents of the State of Wisconsin and residents of surrounding states. The park has twelve miles of developed trails allow hiking, biking (including 10 miles of groomed snow bike trails) and horseback riding. Visitors can also fish at are several fishing points or launch their boat from one of 3 landings throughout the park. |

| The park operates two separate campgrounds with a total of 106 sites. The South Unit Campground has 60 sites; 24 with electricity; 36 without electricity, 2 vault restrooms, dumpster, recycling station, water pump. The West Unit Campground has 46 sites, all 46 sites have electricity; 2 water pumps, 2 vault restrooms, campsites with view of water, self registration station, dumpster, recycling station, picnic area, group campsite.  |
|--|
| The park also has a beach with 100 parking spaces (54 beach/46 other), 2 vault restrooms, changing rooms, open grassy area, 3 open shelters, BBQ shelter, 2 water pumps, horseshoe pits, playground equipment, scattered tables & grills.  |
| This park is busy all year long with campers, daily users, fisherman, bikers, hikers, runners<br>and disc golf players. The park serves as a public space for the community to take a break<br>from the stress and negative impacts of COVID-19. Surveys have indicated the need for<br>additional restrooms with running water and shower facilities. Campers and beach goers<br>have requested the shower facilities to enhance their hygiene and their experience using the<br>Big Eau Pleine Park. |

#### Relation to Other Projects (if applicable):

This project could be completed at the same time as the Dells of Eau Claire project which might result in some cost savings.

#### Alternatives Considered:

- 1. Status Quo
- 2. Placing two shower/restroom facilities
- 3. Installing restrooms only

#### **Reasons Alternatives Rejected:**

- 1. Currently no running water other than well pumps for potable water and does not increase the ability for users to practice good hygiene and wash their hands.
- 2. Two facilities would be nice but is not necessary and there is a significant cost difference
- 3. If restrooms are installed with running water it is cost effect to add the showers as well to enhance the amenity of the park/campgrounds.

# **PROJECT PURPOSE(S)** - Check all that apply and please explain below: The Ranking Form related area is noted in **RED** at the end of each question below.

|             | This project is required to meet legal, mandated, or contractual obligations?<br># 1 Regulatory Compliance  |

complete a project that has begun or under construction? #4 Unique Circumstances Please explain all checked boxes below:

# **Capital Project Request Form**

#2 Public Health and Safety: COVID-19 highlighted the importance for increased sanitation, adequate facilities and adequate staffing. Camping provides a cost effective reprieve to the stressful and busy lives of individuals. Those effected by COVID-19 in the area may not have been able to afford traveling too far from home. The campgrounds as well as the parks were an outlet for residents of Marathon County, the State of Wisconsin and surrounding states to social distance, enjoy the fresh air and get out of their homes even if it was only for one night. Use of the County Park facilities increased by 300% in June-August of 2020 and 2021 based on a google mobility poll. The increased demand on the park facilities increased the need for staff to clean the facilities and increased the maintenance needed on the vault toilets and park amenities. Due to COVID-19 the frequency of cleaning and maintenance of the facilities was increased from daily to twice daily or weekly to daily in the areas typically less frequented. Cleaning and disinfecting the facilities was of utmost importance to provide visitors with a safe experience.

The addition of a shower/restroom facility will increase the facility options for the park users. It will provide a facility with running water for visitors to properly wash their hands. A shower/restroom facility allows campers to practice good hygiene. This addition has been a requested amenity for campers in the past and continued to be requested this last year by seasoned campers as well as new campers that may have experienced camping for the first time during COVID-19. These facilities will also attract users to stay longer within the campground giving them the fresh air they need to increase their quality of life while also increasing the revenue to the County that can be utilized to offset the cost of the demand for more staff.

#6 Growth/Economic Development and #7 Consistency with County Objectives: Adding running water to the campgrounds with the construction of a new restroom/shower facility meets Objective 10.12 of the Strategic Plan; maintain infrastructure to support economic growth. Enhanced amenities will attract more users to the campground and allow for increased fees for facility usage. Strategy F, securing state and federal funding to maintain infrastructure and support economic growth speaks to the utilization of ARPA funds to enhance our outdoor recreation facilities. Outdoor recreation is an economic asset that Marathon County and the State of WI have. Outdoor Recreation draws visitor to the area, helps to retain current employees and attract new talent and enhances the economy of Marathon County. The Comprehensive Plan Chapter 11 is dedicated to recreation, tourism and cultural resources, identifying recreation as an important part of the operations of Marathon County. This chapter states that every County park should provide the "base" recreation facilities including roads, parking, restrooms, drinking water, etc.

### Explain any other annual benefits to implementing this project:

Enhancing the amenities of the campground will make the campgrounds more marketable and desirable by visitors. Also adding amenities to the campgrounds will allow for higher fees for use of these amenities.

5 YEAR FORECASTED PROJECTS (if you want a project considered please put on this list) This must be filled out.

## ORDERING INFORMATION

CXT<sup>®</sup> Precast Concrete Products manufactures restroom, shower and concession buildings in multiple designs, textures and colors. The roof and walls are fabricated with high strength precast concrete to meet all local building codes and textured to match local architectural details. All CXT buildings are designed to meet A.D.A. and to withstand heavy snow, high wind and category E seismic loads. All concrete construction also makes the buildings are prefabricated and delivered complete and ready-to- use, including plumbing and electrical where applicable. With thousands of satisfied customers nationwide, CXT is the leader in prefabricated concrete restrooms.

1. ORDERING ADDRESS(ES): CXT Precast Concrete Products, 606 N. Pines Road, Suite 202, Spokane Valley, WA 99206

- 2. ORDERING PROCEDURES: Fax 509-928-8270
- 3. PAYMENT ADDRESS(ES): Remitting by check: CXT, Inc., PO Box 676208, Dallas, TX 75267-6208

Remitting by ACH or wire transfer: Beneficiary: CXT, Inc. Beneficiary Bank: PNC Bank, Pittsburgh, PA Account: 1077766885 ABA/Routing: 043000096 Email remittance details to AR@lbfoster.com

4. WARRANTY PROVISIONS: CXT provides a one (1) year warranty. The warranty is valid only when concrete is used within the specified loadings. Furthermore, said warranty includes only the related material necessary for the construction and fabrication of said concrete components. All other non-concrete components will carry a one (1) year warranty. CXT warrants that all goods sold pursuant hereto will, when delivered, conform to specifications set forth above. Goods shall be deemed accepted and meeting specifications unless notice identifying the nature of any non-conformity is provided to CXT in writing within the specified warranty. CXT, at its option, will repair or replace the goods or issue credit for the customer provided CXT is first given the opportunity to inspect such goods. It is specifically understood that CXT's obligation hereunder is for credit, repair or replacement only, F.O.B. CXT's manufacturing plants, and does not include shipping, handling, installation or other incidental or consequential costs unless otherwise agreed to in writing by CXT.

This warranty shall not apply to:

1. Any goods which have been repaired or altered without CXT's express written consent, in such a way as in the reasonable judgment of CXT, to adversely affect the stability or reliability thereof;

2. To any goods which have been subject to misuse, negligence, acts of God or accidents; or

3. To any goods which have not been installed to manufacturer's specifications and guidelines, improperly maintained, or used outside of the specifications for which such goods were designed.

5. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE): All prices subject to the "Conditions of Sale" listed on the CXT quotation form.

Customers are responsible for marking exact location building is to be set; providing clear and level site, free of overhead and/or underground obstructions; and providing site accessible to normal highway trucks and sufficient area for the crane to install and other equipment to perform the contract requirements. Customer shall provide notice in writing of low bridges, roadway width or grade, unimproved roads or any other possible obstacles to access. CXT reserves the right to charge the customer for additional costs incurred for special equipment required to perform delivery and installation. Customers will negotiate installation on a projectSource**well** 

Contract # 081721-CXT

by-project basis, which shall be priced as separate line items. For more information regarding installation and truck turning radius guidelines please see our website at <a href="http://www.cxtinc.com">http://www.cxtinc.com</a>.

In the event delivery of the building/s ordered is/are not completed within 30 days of the agreed to schedule through no fault of CXT, an invoice for the full contract value (excluding shipping and installation costs) will be submitted for payment. Delivery and installation charges will be invoiced at the time of delivery and installation.

Should the delivery and installation costs increase due to changes in the delivery period, this increase will be added to the price originally quoted, and will be subject to the contract payment terms.

In the event that the delivery is delayed more than 90 days after the agreed to schedule and through no fault of CXT, then in addition to the remedies above, a storage fee of  $1-\frac{1}{2}$ % of contract price per month or any part of any month will be charged.

\*\*Customer is responsible for all local permits and fees.

6. DELIVERY CHARGE: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers.

7. PAYMENT TERMS: All orders are cash in advance. At CXT's discretion, credit may be given after approval of credit application. Payment to CXT by the purchaser of any approved credit amount is net 30 days after submission of invoice to purchaser. Interest at a rate equal to the lower of (i) the highest rate permitted by law; or (ii) 1.5% per month will be charged monthly on all unpaid invoices beginning with the 35th day (includes five (5) day grace period) from the date of the invoice. Under no circumstance can retention be taken. If CXT initiates legal proceeding to collect any unpaid amount, purchaser shall be liable for all of CXT's costs, expenses and attorneys' fees and costs of any appeal.

8. LIMITATION OF REMEDIES: In the event of any breach of any obligations hereunder; breach of any warranty regarding the goods, or any negligent act or omission of any party, the parties agree to submit all claims to binding arbitration. Any settlement reached shall include all reasonable costs including attorney fees. In no event shall CXT be subject to or liable for any incidental or consequential damages. Without limitation on the foregoing, in no event shall CXT be liable for damages in excess of the purchase price of the goods herein offered.

9. DELIVERY INFORMATION: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers. Use the information below to determine the origin:

• F.O.B. 6701 E. Flamingo Avenue, Building 300, Nampa, ID 83687 applies to: AK, CA, HI, ID, MT, ND, NV, OR, SD, UT, WA, WY.

# DREWS AND KOEPPEL WELL DRILLING 50' WELL PACKAGE

### **INCLUDES:**

\* Up to 50' of 6" drilling. (40' of 8" drilling if required)

- \* Up to 50' of 6" steel casing.
- \* 3' stainless well screen---if needed.
- \* 6" hardened drive shoe.
- \* 6" WI approved sealed well cap.
- \* Up to 10 bags of Portland cement if required.
- \* First bacteria and nitrate water tests.
- \* WI well permit fee.

Additional drilling at 2/2 FT.Additional granite drilling at 22.2 FT.Additional steel well casing at 32.2 FT.

Geology may require drilling methods and/or materials not listed and would add to the cost.

| Description<br>Summary / Scope | Replace vault toilet at Cherokee Park with pre-engineered precast concrete structures with sealed vaults. The existing toilet building vaults are leaking or subject to leaking due to cinder block construction. |
|--------------------------------|---|
|                                |   |

#### Relation to Other Projects (if applicable):

This is year 5 of a 7 year program

#### Alternatives Considered:

- 1. Continue to defer replacement
- 2. Replace with flushable systems with septic
- 3.

#### **Reasons Alternatives Rejected:**

- 1. Risk to ground water
- 2. Cost prohibitive
- 3.

**PROJECT PURPOSE(S)** - Check all that apply and please explain below: The Ranking Form related area is noted in **RED** at the end of each question below.

|             | This project is required to meet legal, mandated, or contractual obligations?<br># 1 Regulatory Compliance  |
|-------------|---|
| $\boxtimes$ | This project will result in the protection of life and/or property and maintain/improve public health and safety? <b>#2 Public Safety / Health Impact</b>                                   |
| $\boxtimes$ | This project will result in reductions in expenditures (save money)? #5A Fiscal Criteria  |
| $\boxtimes$ | This project will result in a positive return for Marathon County.<br>#6 Growth/Economic Development  |
| $\boxtimes$ | This project repairs/replaces an important existing physically deteriorated or functionally obsolete county facility, system, service, or equipment? #3 Existing Infrastructure End of Life |
|             | This project provides a new service, facility, system, or equipment.<br>#7 Consistency with County Objectives   |
|             | This project would generate sufficient revenues to be essentially self-supporting in its operations. <b>#6 Growth/Economic Development</b>  |
| $\boxtimes$ | This project would make existing facilities or personnel more efficient or increase their use with minimal or no operating cost increase? <b>#5A Fiscal Criteria</b>                        |
|             | This project will benefit and/or be utilized by other Marathon County departments?<br>#8 Public Benefit   |
|             | This project is consistent with an overall County plan, policy, or goal; and is necessary to complete a project that has begun or under construction? #4 Unique Circumstances               |

#### Please explain all checked boxes below:

The project will provide the much needed updates and maintenance to the restooms that will protect users from any harm of the facility or leaking of the facility into the soul/water.

As restooms age they require additional staff time to conduct more frequent inspections and maintenance. Additional replacement parts are also required with aging facilities

Residents are drawn to new facilities and updated amenities. The County receives revenue from facility reservations and camping. New facilities will draw more renters and visitors to the parks.

The restooms within the County Parks are used heavily by the visitors of the park. The County restrooms have all exceeded their useful life of 15 years and are in need of replacement. Some facilities are leaking into the ground/water.

New restrooms require less staff time for inspections and maintenance freeing up these employees to focus on other required tasks

Updating the County restrooms is identified as high priority in the County's Comprehensive Outdoor Recreation 2020-2024 Plan.

#### **PROJECT COST**

### ORDERING INFORMATION

CXT<sup>®</sup> Precast Concrete Products manufactures restroom, shower and concession buildings in multiple designs, textures and colors. The roof and walls are fabricated with high strength precast concrete to meet all local building codes and textured to match local architectural details. All CXT buildings are designed to meet A.D.A. and to withstand heavy snow, high wind and category E seismic loads. All concrete construction also makes the buildings are prefabricated and delivered complete and ready-to- use, including plumbing and electrical where applicable. With thousands of satisfied customers nationwide, CXT is the leader in prefabricated concrete restrooms.

1. ORDERING ADDRESS(ES): CXT Precast Concrete Products, 606 N. Pines Road, Suite 202, Spokane Valley, WA 99206

- 2. ORDERING PROCEDURES: Fax 509-928-8270
- 3. PAYMENT ADDRESS(ES): Remitting by check: CXT, Inc., PO Box 676208, Dallas, TX 75267-6208

Remitting by ACH or wire transfer: Beneficiary: CXT, Inc. Beneficiary Bank: PNC Bank, Pittsburgh, PA Account: 1077766885 ABA/Routing: 043000096 Email remittance details to AR@lbfoster.com

4. WARRANTY PROVISIONS: CXT provides a one (1) year warranty. The warranty is valid only when concrete is used within the specified loadings. Furthermore, said warranty includes only the related material necessary for the construction and fabrication of said concrete components. All other non-concrete components will carry a one (1) year warranty. CXT warrants that all goods sold pursuant hereto will, when delivered, conform to specifications set forth above. Goods shall be deemed accepted and meeting specifications unless notice identifying the nature of any non-conformity is provided to CXT in writing within the specified warranty. CXT, at its option, will repair or replace the goods or issue credit for the customer provided CXT is first given the opportunity to inspect such goods. It is specifically understood that CXT's obligation hereunder is for credit, repair or replacement only, F.O.B. CXT's manufacturing plants, and does not include shipping, handling, installation or other incidental or consequential costs unless otherwise agreed to in writing by CXT.

This warranty shall not apply to:

1. Any goods which have been repaired or altered without CXT's express written consent, in such a way as in the reasonable judgment of CXT, to adversely affect the stability or reliability thereof;

2. To any goods which have been subject to misuse, negligence, acts of God or accidents; or

3. To any goods which have not been installed to manufacturer's specifications and guidelines, improperly maintained, or used outside of the specifications for which such goods were designed.

5. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE): All prices subject to the "Conditions of Sale" listed on the CXT quotation form.

Customers are responsible for marking exact location building is to be set; providing clear and level site, free of overhead and/or underground obstructions; and providing site accessible to normal highway trucks and sufficient area for the crane to install and other equipment to perform the contract requirements. Customer shall provide notice in writing of low bridges, roadway width or grade, unimproved roads or any other possible obstacles to access. CXT reserves the right to charge the customer for additional costs incurred for special equipment required to perform delivery and installation. Customers will negotiate installation on a projectSource**well** 

Contract # 081721-CXT

by-project basis, which shall be priced as separate line items. For more information regarding installation and truck turning radius guidelines please see our website at <u>http://www.cxtinc.com</u>.

In the event delivery of the building/s ordered is/are not completed within 30 days of the agreed to schedule through no fault of CXT, an invoice for the full contract value (excluding shipping and installation costs) will be submitted for payment. Delivery and installation charges will be invoiced at the time of delivery and installation.

Should the delivery and installation costs increase due to changes in the delivery period, this increase will be added to the price originally quoted, and will be subject to the contract payment terms.

In the event that the delivery is delayed more than 90 days after the agreed to schedule and through no fault of CXT, then in addition to the remedies above, a storage fee of  $1-\frac{1}{2}$ % of contract price per month or any part of any month will be charged.

\*\*Customer is responsible for all local permits and fees.

6. DELIVERY CHARGE: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers.

7. PAYMENT TERMS: All orders are cash in advance. At CXT's discretion, credit may be given after approval of credit application. Payment to CXT by the purchaser of any approved credit amount is net 30 days after submission of invoice to purchaser. Interest at a rate equal to the lower of (i) the highest rate permitted by law; or (ii) 1.5% per month will be charged monthly on all unpaid invoices beginning with the 35th day (includes five (5) day grace period) from the date of the invoice. Under no circumstance can retention be taken. If CXT initiates legal proceeding to collect any unpaid amount, purchaser shall be liable for all of CXT's costs, expenses and attorneys' fees and costs of any appeal.

8. LIMITATION OF REMEDIES: In the event of any breach of any obligations hereunder; breach of any warranty regarding the goods, or any negligent act or omission of any party, the parties agree to submit all claims to binding arbitration. Any settlement reached shall include all reasonable costs including attorney fees. In no event shall CXT be subject to or liable for any incidental or consequential damages. Without limitation on the foregoing, in no event shall CXT be liable for damages in excess of the purchase price of the goods herein offered.

9. DELIVERY INFORMATION: All prices F.O.B. origin prepaid and added to invoice. CXT operates three (3) manufacturing plants in the United States and will deliver from the closest location on our carriers. Use the information below to determine the origin:

• F.O.B. 6701 E. Flamingo Avenue, Building 300, Nampa, ID 83687 applies to: AK, CA, HI, ID, MT, ND, NV, OR, SD, UT, WA, WY.

• F.O.B. 901 North Highway 77, Hillsboro, TX 76645 applies to AR, AZ, CO, IA, KS, LA, MN, MO, MS, NE, NM, OK, TX.

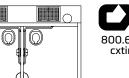

• F.O.B. 362 Waverly Road, Williamstown, WV 26183 applies to AL, CT, DE, FL, GA, IL, IN, KY, MA, MD, ME, MI, NC, NH, NJ, NY, OH, PA, PR, RI, SC, TN, VA, VT, WI, WV.

• Prices exclude all federal/state/local taxes. Tax will be charged where applicable if customer is unable to provide proof of exemption.

#### DOUBLE CASCADIAN - 11' 11" x 14' 4"

Double Cascadian is a double vault style restroom. Standard features include two polyethylene lined concrete vaults, simulated board and batt upper and lap siding lower textured walls, simulated cedar shake textured roof, off loaded, and set up at site.

| Description<br>Summary / Scope | Complete a site plan and architectural study for the Marathon Junction and family area of Marathon Park as identified in the Westside Master Plan. The plan will determine the needs of all users, needs of the County and potential redevelopment of the Marathon Junction. |
|--------------------------------|--|
|                                | This study would meet with user groups, determine the location of the splash pad, playground and develop preliminary architectural plans and ideas for Marathon Junction.  |

#### **Relation to Other Projects (if applicable):**

Adopted as part of the Westside Master Plan to address the aging splash pad, playground and underutilized Marathon Junction.

#### Alternatives Considered:

- 1. Do nothing
- 2. Renovate only Marathon Junction
- 3.

#### **Reasons Alternatives Rejected:**

- 1. Splash pad has reached its useful life and is in need of replacement or will be closed
- 2. There was a vision set in the Westside Master Plan that included enhanced amenities for park users to address the aging infrastructure and underutilized spaces and identify potential revenue sources.

3.

# PROJECT PURPOSE(S) - Check all that apply and please explain below: The Ranking Form related area is noted in RED at the end of each question below.

|             | This project is required to meet legal, mandated, or contractual obligations?<br># 1 Regulatory Compliance   |
|-------------|--|
| $\boxtimes$ | This project will result in the protection of life and/or property and maintain/improve public health and safety? <b>#2 Public Safety / Health Impact</b>  |
|             | This project will result in reductions in expenditures (save money)? #5A Fiscal Criteria   |
| $\boxtimes$ | This project will result in a positive return for Marathon County.<br>#6 Growth/Economic Development   |
|             | This project repairs/replaces an important existing physically deteriorated or functionally obsolete county facility, system, service, or equipment? <b>#3 Existing Infrastructure End of Life</b> |
| $\boxtimes$ | This project provides a new service, facility, system, or equipment.<br>#7 Consistency with County Objectives  |
| $\boxtimes$ | This project would generate sufficient revenues to be essentially self-supporting in its operations. #6 Growth/Economic Development  |
|             | This project would make existing facilities or personnel more efficient or increase their use with minimal or no operating cost increase? <b>#5A Fiscal Criteria</b>                               |
| $\boxtimes$ | This project will benefit and/or be utilized by other Marathon County departments?<br>#8 Public Benefit  |

This project is consistent with an overall County plan, policy, or goal; and is necessary to complete a project that has begun or under construction? **#4 Unique Circumstances** 

#### Please explain all checked boxes below:

#2 Public Safety/Health Impact: The current splash pad and Marathon Junction have a number of items that are in need of repair including the roof and mechanical system of the splash pad. To keep the area operational and safe these items need to be addressed.

#6 Growth/Economic Development: The Marathon Junction has the potential to be a revenue source for the County. Enhancements contribute to the high quality of life in the county.

#3 Existing Infrastructure/End of Life: The Marathon Junction and the splash pad have eached their life expectancy. Replacement, renewal or removal would be the next step.

#7 Consistency with County Objectives: The County strives to be the Healthiest, Safest and Most Prosperous. The Marathon Junction provides a quality of life amenity to the community where youth and adults can be active, engage in a safe, healthy and social activity.

#8 Public Benefit: Completing the architectural study will identify opportunities to make this facility into a facility that county department and the community can gather, host events and meetings and utilize when needed.

#### PROJECT COST

| Estimated Cost Components  |           | Cost Allocatio  | on Per Fiscal Year           |
|--|-----------|---|------------------------------|
