Metro Ride - Public Transportation Agency Safety Plan (PTASP)

The Moving Ahead for Progress in the 21st Century (MAP-21) Act grants the Federal Transit Administration (FTA) the authority to establish and enforce a comprehensive regulatory framework to oversee the safety of public transportation throughout the United States. As a component of this safety oversight framework, MAP-21 requires certain recipients of FTA Chapter 53 funding to develop and implement a Public Transportation Agency Safety Plan (PTASP).

In addition to greater safety oversight responsibilities, MAP-21’s grant of expanded regulatory authority puts FTA in a position to provide guidance to transit agencies that strengthens the use of safety data to support management decisions, improves the commitment of transit leadership to safety, and fosters a culture of safety that promotes awareness and responsiveness to safety risks. The framework to this approach is called a safety management system (SMS), which moves the transit industry towards a more holistic, performance-based approach to safety. The SMS framework has been adopted by FTA in its National Public Transportation Safety Plan (“national safety plan”).

The PTASP for Metro Ride supports and is consistent with an SMS approach to safety risk management. SMS is an integrated collection of policies, processes, and behaviors meant to ensure a formalized, proactive, and data-driven approach to safety risk management. The aim of an SMS is to increase the safety performance of transit systems by proactively identifying, assessing, and controlling safety risks. The approach is meant to be flexible and scalable, so that transit agencies of all types and sizes can efficiently meet the basic requirements of MAP-21. This PTASP addresses all applicable requirements and standards as set forth in the FTA’s Public Transportation Safety Program and the National Public Transportation Safety Plan.

Safety Management Policy

Safety Management Policy Statement

Safety is Metro Ride’s first priority. Metro Ride is committed to implementing, developing, and improving strategies, management systems, and processes to ensure that all our activities uphold the highest level of safety performance and meet required safety standards.

We will develop and embed a safety culture in all our activities – to recognize the importance and value of effective safety management and acknowledge at all times that safety is paramount.

We will clearly explain for all staff their accountabilities and responsibilities for the development and operation of our safety management system (SMS).

For passengers and employees, we will minimize the safety risk associated with transit service to as low as reasonably practicable and we will work to comply with and, wherever possible, exceed legislative and regulatory requirements and standards. We also will work to ensure that all employees are provided with adequate and appropriate safety information and training, are competent in safety matters, and are only allocated tasks commensurate with their skills.

We have established safety performance targets to help us measure the overall effectiveness of our processes and ensure we meet our safety objectives. We will issue quarterly reports to the entire organization documenting how well we met our safety performance targets and describing the safety risk mitigations we implemented to reduce safety risk.

Passengers may need transportation to their jobs and/or their Day Services Programs. Requested vehicles will be used as replacement vehicles for existing services for individuals with disabilities and elderly. While these vehicles will be used to provide all of the services mentioned in the above section, the primary service these vehicles will provide is transportation to and from medical appointments and for shopping, which includes trips to the pharmacy and stores such as Walgreens, Walmart, Sam's Club, Kohls, Best Buy, Kwik Trip, Pick 'n Save, etc.

The program currently staffs, 1 full time Transportation Director/Regional Mobility Manager, 1 full time Transportation Program Coordinator, 1 Transportation Program Assistant, 5 full time Transportation Specialist who do dispatching and information and referral in a 41 county service area in North Western and Central Wisconsin. The Center's transportation programs operate 7 days a week 24 hours a day. (Which would include weekends and holidays) These hours insure that all riders get their unmet needs taken care of when other programs are closed. The Center has found that the riders need flexible transportation options and provides these services to meet their ever-changing needs. The Center can also provide rides that cross state lines and boundaries that other programs cannot. Since 2009 we have increased our geographically service area by 95%. In 2019 our volunteer driver program and voucher program provided 30,061 rides to 4180 riders. The volunteer drivers logged 1,388,160 miles, gave more than 51,001.9 volunteer hours of service to help transport the elderly, and disabled in our service areas.

Bipartisan Infrastructure Law (BIL) Local Programs Project Solicitation FFY2023-FFY2026 Applications

Application materials for the Bipartisan Infrastructure Law (BIL) Federal Fiscal Year 2023 (FFY23) thru Federal Fiscal Year 2026 (FFY26) project solicitation are now available on the WisDOT website.

Applications are being accepted for the Surface Transportation Program (STP)-Urban, STP-Rural, STP-Local, Congestion Mitigation and Air Quality (CMAQ) and Local Bridge Improvement Assistance programs.

The Bipartisan Infrastructure Law (BIL) is expected to provide significant increases in federal transportation funding for the next five years, beginning with FFY22. Time is of the essence in planning for the use of this additional federal funding.

As such, WisDOT is now soliciting for local program design and construction projects for the FFY23-FFY26 time period. To be considered for funding in this FFY23-FFY26 solicitation, local agencies must apply by June 3, 2022.

The department will be conducting an informational webinar regarding this FFY23-FFY26 BIL project solicitation. Details on this webinar will be provided later this week.

Program eligibility guidelines and application materials can be found on the WisDOT Local Assistance Programs BIL webpage:
