AGENDA SUMMARY

The proposed amendments are recommendations by the Recreation Deputies to clarify and enhance a number of ordinances where questions have arisen in the field over the past year. These amendments will allow the ordinances to be more easily enforced by the Recreation Deputies and Assistance Facility Managers. At this time the Park Commission is asked to discuss these amendments in addition to providing staff with direction on the possible establishment of an ordinance for usage of metal detectors and drones. Any changes to these amendments will be reviewed by Corporation Counsel prior to coming back to the Park Commission in January.

4. Policy Issues for Discussion and Committee Determination

A. Discussion and Possible Action by Committee

1. Discussion and Possible Action Regarding Deer in Bluegill Bay Park – Polley explained that a request had been made by Commissioner and Town of Rib Mountain Supervisor Opall to discuss the deer population in Bluegill Bay County Park and how it might be controlled. Residents recently attended a Town Board meeting and expressed their concern about the number of deer in the park and in surrounding yards. Staff has heard about the issue of deer within the park before and is also aware that certain neighbors around the park feed the deer which in turn enhances the issue. Currently hunting is prohibited within parks. The Park Commission has the ability to allow hunting to occur in county parks and given the size and proximity of the park, only bow hunting could be allowed. Staff has spoken with the County's Corporation Counsel and the DNR. Options the Park Commission has for controlling the deer population include; doing nothing, do nothing at this time and collect more information, open the park for deer hunting during the regular bow season to licensed hunters only, open a special hunt with a permit from the DNR to licensed hunters after all deer hunting seasons have concluded (this could be open to all licensed hunters and licenses would be limited) or hire skilled archers to reduce the population. If the Park Commission would like to pursue a hunt of any kind an ordinance setting the parameters would be required to be passed by the County Board.

Brandon Stefanski, DNR Wildlife biologist discussed different options for reducing the herd size. He said enforcement of the feeding ban should take place. People that feed the deer help keep the population above where it is sustainable and regeneration at Bluegill Bay Park will be decimated by the deer if they continue to be at the current population. There should be public education that if the deer are overpopulated they will have less to eat so reducing the herd size makes them healthier. If there is not food to eat, they will move on to where there's food. He discussed the different archery hunting options and said if they choose to do a hunting option that a nuisance permit might be best because they can specify numbers of permits, locations in the park, days of the hunt, that its antlerless only, that only elevated stands are used, etc. Opall said the overall responsibility is on the Town and they can control other small wooded areas but not the park. Conrad felt a campaign of public awareness would be very important. Wehner said information could be put in Town newsletter, website and Facebook page. Peckham would first like to see enforcement of the ban and education of the community before they consider other options. Discussion followed on the importance of the Town and the County being consistent on the issue so that certain areas don't become refuges for the deer.

Motion by Wadinski, second by Maszk that the Park Commission recommend to County Board to conduct a nuisance hunt of the deer in Bluegill Bay Park with the understanding that first the Town will do publicity about the feeding ban and that a future hunt may be possible if there is no reduction in the herd. Polley said they could either enforce the feeding ban along with a permitted nuisance hunt late this winter or they could wait to see if enforcement makes a difference and decide later if they want to do a permitted hunt. Stefanski said there wouldn't be an instant impact if people stop feeding the deer but hopefully over time the deer will move off. There will always be some deer but their numbers will be reduced. **Motion** by Peckham, second by Opall to amend the motion to say that the County will work with the Town on enforcement of the feeding ban and education for the community about feeding effects on the deer population within the park. This issue will

be brought back to consider other options such as archery hunting if the problem is not significantly reduced. Opall will begin publicity and Polley said information will be posted in the park as well. Vote to amend the motion **carried** by voice vote, vote reflected as 7-0. Amended motion **carried** by voice vote, vote reflected as 7-0.

Opall, Wehner, Stefanski, Seubert left the meeting at 11:20 a.m.

2. Discussion and Possible Action on the Proposed Parks, Recreation, and Forestry Department 2021 Budget – Polley reported on items related to the budget including personnel costs, contracted services, materials and supplies, and insurance and fixed costs. She noted that the Department was able to absorb the increase of the snowmobile/ATV coordinator position from a .60 to a .75 FTE. She also said that health insurance premiums that had been budgeted at a 9% increase are now at a 6.5% increase. The PRF budget reflects an overall 0.421% decrease from 2020 to 2021. Polley gave a comparison of the 2021 budget from 2020. Of note is a large decrease in the gasoline and diesel fuel to budget closer to the three year annual average and an increase in revenues from camping. Questions were answered. **Motion** by Maszk, second by Herbst to approve the County park budgets as submitted and move them ahead through the annual budget process. Motion **carried** by voice vote, vote reflected as 6-0.

Polley discussed the parks small project list and said some of the priority projects include park operations mechanic shop hoist replacement, Dells of the Eau Claire Park steps to overlook and high bridge deck replacement, Marathon Park utility mapping, ice arenas rubber flooring, and tables and chairs for East Gate Hall and MPB's.

5. Operational Functions Required by Statute, Ordinance or Resolution: A. Discussion and Possible Action by Committee and B. Discussion and Possible Action by Committee to Forward to the Environmental Resource Committee for its Consideration - None
